Respected Sir,

Sub- Request for Conducting Add on Certificate courses for Civil Engineering Students- Reg.

In our Academic Advisory committee meeting suggestions received from the various Experts we have to conduct Add on courses for our Civil Engineering students. In this regard we planned to arrange the company specific training course, Structural Design Course by GMD Civil Solutions for our final year students. So I request you to grant permission to conduct the courses.

Thanking You

Your's faithfully

ABOUT US

GMD CIVIL SOLUTIONS is working with a mission to enhance the knowledge of civil engineering students who are pursuing their under graduate and post graduate programs which will help them to achieve success in their civil engineering career. The main focus is to provide a quality training to the students by the support of our privilege team with industrial experience, so that the students can fit themselves in industry.

We offer an exclusive **Civil Design Course** often call **Structural Design Course** in India. Civil design courses can speed you to the forefront of your industry and teach you the necessary skills to communicate and deliver your designs. This academy is founded to meet practical and professional aspect of civil engineering professionals and committed not only to explain the workability of the software's but also the professional way to use these softwares.

SYLLABUS CRITERIA FOR DESIGN COURSE

INTRODUCTION

- Basic Units conversions.
- Introduction to construction materials and their properties.
- Introduction about IS-Codes regarding their respective area.
- Introduction about Site Execution work.
- □ Role of Architectural Engineer, Structural Engineer, Site Engineer, Quantity Surveyor.

AUTOCAD

- Introduction to AutoCAD.
- Basics of AutoCAD commands.
- Introduction to Architectural Drawing.
- Drawing of Existing residential building's & apartment structures.
- Creation of new Architectural drawing in AutoCAD as per Vasthu.
- Preparing structural drawings including Foundation Layout, Plinth Beam Layout, Floor Beam, Layouts, Beam Cross Section and other structural components.

STAAD PRO ANALYSIS AND DESIGN

- Basics of Staad Pro.
- Creation of Structural Model in Staad.
- Assigning of Supports & Properties.
- Calculation and assigning of Loads.
- Assigning of Design Properties.
- Analysing of Structural Model and study of output file.

STRUCTURAL DETAILING AND DESIGN

- Deciding the size of footing, column, beam and their reinforcement details as per structural outputs.
- Deciding the reinforcement details for Slab, Staircase, Underground Sump.
- Design of steel structure .
- Design of pile foundation.
- Design of overhead tank.
- Seismic and wind loading of structure.

QUANTITY SURVEYING

- Excavation and filling of soil for foundation and plinth beam
- Calculation of Plain cement concrete (PCC) quantity for Foundation, Plinth Beam, Flooring.
- Calculation of Reinforced cement concrete (RCC) and shuttering lumber quantity for foundation, plinth, lintel, floor beam, column, staircase and slab.
- Calculation of Brickwork and plastering work.
- Calculation of floor and wall tiles.
- Calculation of granite and weathering coarse tile
- Calculation of Painting works.
- Calculation of individual material quantity such as quantity of Sand, bricks, cement Bags,
 Reinforcement, Coarse Aggregate, wood.

VIDEO LECTURE AND POWER POINT PRESENTATION

- Cement, manufacturing and their types.
- ☐ Fine and coarse aggregate.
- Chemical Admixtures.
- Selection of Reinforcement Steel and their cover
- Building with Bricks and Blocks.
- Placing of Concrete.
- Quality of Bricks, sand, M-sand
- Manual and machine Concrete Mixing..
- Transportation of Concrete.
- Ready Mix Concrete.
- Effect of water in Concrete.
- Test for Grading and silt content of Sand.
- Test for Grading of coarse aggregates.
- □ Test for Workability of Concrete.
- □ Test for Compressive Strength of Concrete.
- Field test for Cohesion of concrete.
- Quality of Water in Concrete.
- Anti Termite Treatment.
- Non Destructive Testing methods.
- Repair And Rehabilitation Of Structures.

FIELD EXPERIENCE

- Measuring of Proposed Land and study of documents.
- Study of architectural and structural drawings.
- Foundation marking.
- Column starter marking.
- Formwork of Beam, Column And Slab.
- Placing of Concrete.
- Bar Bending schedule, lap length & Development length of bars.
- Brickwork, Plastering Work, Tile Work, Painting Work.
- Construction safety.

OUTCOME OF STRUCTURAL DESIGN COURSE

- At the end of this session, student can able to Planning of individual House & apartment structures as per vasthu.
- Planning of Commercial and industrial buildings.
- Modelling of proposed building in Staad pro.
- Assigning of property ,loads, designing parameters and generation of output.
- Finalising the sizes of footing ,Column and beam, & Reinforcement Detailing for Footing, column, Beam & slab.
- Preparation of Bills Of Quantities and Rate Analysis.
- Knowledge in field Execution.

DURATION OF COURSE

This is certify that Ms.A.RAJESWARI studying Under Graduate in CivilEngineering atPrathyushaEngineering College,Aranvoyalkuppam,Poonamalle Thiruvallur road,Thiruvallur 602025 had undergone Training in our firm. He had successfully completed the training programme from 28.08.2018 to 03.10.2018

During this Training he had exposure in Analysis and Design of Reinforced concrete Structures, Drafting of Architectural & Structural Drawings, Preparation of Bills of Quantites and Estimation works including Field Supervising Work in our Residential and Commercial Flats Construction.

During this period of training we found him to be of good conduct.

We wish her all success in future endeavours.
