Department of Biotechnology, Prathyusha
Engineering college, Chennai - 602025

Abstract

Ashwagandha (*Withania somnifera*) is an important medicinal plant that has been used in ayurvedic and indigenous medicine since ancient time. This herb is used for various kinds of diseases and especially as a nervine tonic. The aim of this work is to develop an nutraceutical and fermented beverage using ashwagandha extract as a natural source. *Lactobacillus acidophilus* strain was selected as best source of fermentation, which is positively affected by the addition of sugarcane molasses and yeast extract as carbohydrate substrate. From the fermented product, the final pH was found to be 4.36 with the acidity of 2.1 mL 0.1 N NaOH and the bitterness of 12.8 IBU (International Bitterness Units) and 7.07% of alcohol and 1.52 mg/mL of reducing sugar and the 106 CFU of total bacterial count were analysed and determined. Thus, the ashwagandha have 54% of antioxidant activity which was analysed by the method, FRAP (Ferric Reducing Antioxidant Power Assay). Atlast the fermented beverage was attained.

Introduction

Withania sonifera, know commonly as ashwagandha, indian ginseng, poison gooseberry or winter cherry is a plant in the solanaceae or nightshade family. Several the species in the genus withania are morphological similar. Although commonly used as a medicinal herb in ayurvedic medicine, there is no conclusive cilinical evidence that it is effective for treating any aliment. From this current study, we had been planned to develop a nutraceutical fermented beverage from ashwagandha as a main ingredients.

Objective

The selected herbs *Withania sonifera* was choosen for fermentation with the selected lactic acid bacteria. To increase the nutrition content level in fermented beverage from available substrate. The final nutraceutical fermented beverage was separated and analyzed for antioxidant activity.

Materials and Methods

The raw materials were collected for fermented beverage. The Ashwagandha extract were prepared from the root. The broth for fermentation were made with 1000ml of ashwagandha root extract, added of sugarcane molasses as a carbon source and yeast extract as a nitrogen source in proportion of 42.5g and 5g was respectively. Saccharification test was carried out. Extracellular product was extracted with the help of selected microorganism *Lactobacillus acidophilus*. Oxidative fermentative test was carried out. Further botteling and pasteurization of the beverage was carried out. Paramaters were evaluated for the fermented beverages.

Working

The beverage was analyzed for reducing sugar, Antioxidant content and Shelf life of the drink. Further it was characterized with the help of GC-MS.

Result

Ashwagandha extract is done at 450 c for 30 mins and filter with watmen filter paper. The yeast extract and sugarcane molasses use to carbohydrate substrate for lactic acid bacteria(*Lactobacillus acidophilus*). *Lactobacillus acidophilus* is gram positive bacteria and most commenly found in gastrointestinal tract of human and animal. The carbohydrate substrate was formulated with ashwagandha extract. After that the formulated extract was innoculated into fermentor for 24 hours. During the fermentation process different type of parameter such as water analysis, beverage analysis, bioactive compount activity(antioxidant activity), bacterial count, and observed the shelflife of product. From the water analysis headness, chlorides, alkalinity were checked followed by beverage analysis Ph, colour, bitterness, alcohol content, acidity, bactreial count were obversed. After that antioxidant activity was obseversed as a 69%.finally the fermented product was obtained with healthy and proper nutritional level.

Conclusion

From this study we developed nutraceutical fermented beverage using Ashwagandha as a main source followed by lactic acid bacteria (*Lactobacillus acidophilus*) and carbohydrate substrate.

Respected Madam

We are pleased to inform you that we are happy about the student work in your previous project and we look further for more App development. We are in position to do our next project for Kalam Foundation and it begins in one month's time so we need to begin discussing details immediately.

We would like to arrange a personal meeting where we could review the project specifications and sign the necessary paperwork. We are excited to have a long and mutually beneficial business relationship.

Yours sincerely

Dear Sir,

Sub: 1st Installment of Programme/s Sanctioned under DST-NIMAT Project 2018-19

This is with reference to the Agreement signed between EDII and your organization for conducting programme(s) under DST-NIMAT Project 2018-19 to create techno-entrepreneurs and resource persons through Entrepreneurship Development Programme Agency.

As per the Agreement, 80% of the sanctioned amount per programme is to be released before commencement of the programme(s). Accordingly, Rs. 16000/- has been credited in your bank account on 04/08/2018. The detailed brake-up of the total amount is as following:

Sr. No.	Programme / Activity	No. of Programme Sanctioned	1 st Installment per Programme (Rs.)	Total Amount of the Programme (Rs.)
1	EAC	1	16000/-	16000/-
Total				16000/-

You are requested to please send us the receipt for the same.

Thanking you with regards,

Yours sincerely,

Prakash Solanki

Abstract:

The motive of the project is to automate the sewage cleaning process in drainage, to protect the biodiversity. A study recently published in the *Proceedings of the National Academy of Sciences* (PNAS) found that at least 88 percent of the Earth's water surface is polluted with plastic debris. The result is not just a number, it says the contamination level of water. All the plastic wastes are of less density and so they float. The wastes also block the water path at narrow regions. The floating waste reduces the absorption amount of sunlight by water which results in imbalance of aquatic system. The reduction of this level of contamination is a very difficult one. And we cannot employ humans to clean the floating wastes because it may cause severe problems. We can overcome this problem by using a machine in that field. Our project is about automatic sewage cleaning machine, which can be used to clean the solid floating wastes that may be plastic or any other lighter waste materials. There are two parts mechanical & electronics. Mechanical system performs the lifting, moving & throws the waste by the power of motor. Electronics part of this controls the speed, frequency of the mechanical components.

Key Words: Automatic, Floating, Wireless

INTRODUCTION:

Cleaning of drains has always been a problem. Labors cleaning drain seems unethical. It also leads to a high risk of them catching infections or poisoning due to large amounts of waste/chemicals in them. Also throwing of bottles/plastics and other such objects in the water lead to narrowing and eventually create a block in the flow of water. This leads to overflow in many cases. So here we provide a fully automated sewage cleaning machine to tackle these modern day sewage jamming issues. Our system uses an automated drain cleaning system that lets fluids flow through it but catches the floating waste like bottles & plastic and accumulates it. Our project consists of metal teeth based jaws that are mounted over the chain of the conveyor which is inclined to an angle. The inclined wireframe fixed along with the conveyor is used to let liquid flow but catch all solid waste. The machine consists of a storage tank on top of it. The jaws keep moving over the conveyor using a motorized shaft which is connected using a belt. It then reaches the top and turns upside down to discharge the solid waste in the storage tank. The jaws then move downward as the motor keeps rotating. The cycle continues. This project consists of a floating arrangement along with navigational facilities. The electronic part controls the speed of the conveyor and navigation and provides a control over the machine using Wi-Fi network. The system is a very efficient way to clean the floating waste from water reservoirs such as ponds, dams, rivers, etc. This system has limited human intervention in the process of cleaning and in turn reduces spreading of diseases to mankind.

Literature survey:

Ganesh U L, et.al. ^[1] demonstrated the utilization of mechanical seepage cleaner to trade the manual work required for waste cleaning framework. Seepage funnels are extremely messy. Now and again it is unsafe for human life while it is requirement for cleaning waste framework. To defeat this issue, they executed a mechanical self-loader seepage water cleaner thus the water stream is effective in view of general filtration of wastages with the assistance of that undertaking. Various types of condition dangers diminished with the assistance of Drainage framework machine.

R.Sathiyakala, et.al. ^[2] clarified E pail (electronic basin) use for seepage cleaning framework since E-can lifted a sewage and utilized dissipation treatment for this sewage wet sewage was changed over into dry issues, with the of ARM board (ARDUINO) this procedure was performed. After this procedure they were include this waste an administration bank with no sort of warmth of the bacteria. NitinSall, et.al. ^[3] clarified stream of utilized water from homes, business enterprises, business exercises is called squander water. 200 and 500 liters wastage water are produced every individual consistently. So utilizing waste water innovation that expels, instead of pulverizes, a poison in a seepage framework.

M. Naveena Reddy, et.al. ^[4] created scientific model of a profile changed curved gear age system. They researched the tooth under cutting of a non-standard curved apparatus, in light of the purposed numerical model. They created driving and driven profile changed circular gears. This venture supportive in outline and creation of high exactness circular gears. N.Yashaswini, et.al. ^[5] outlined and broke down for passing on granular materials to the tallness of 15m at the rate of 10tones/hr yield. They clarified fundamental plan estimations for the improvement of the container lift in 3D condition of NX programming. They likewise completed the static and vibration examination on [Type text]

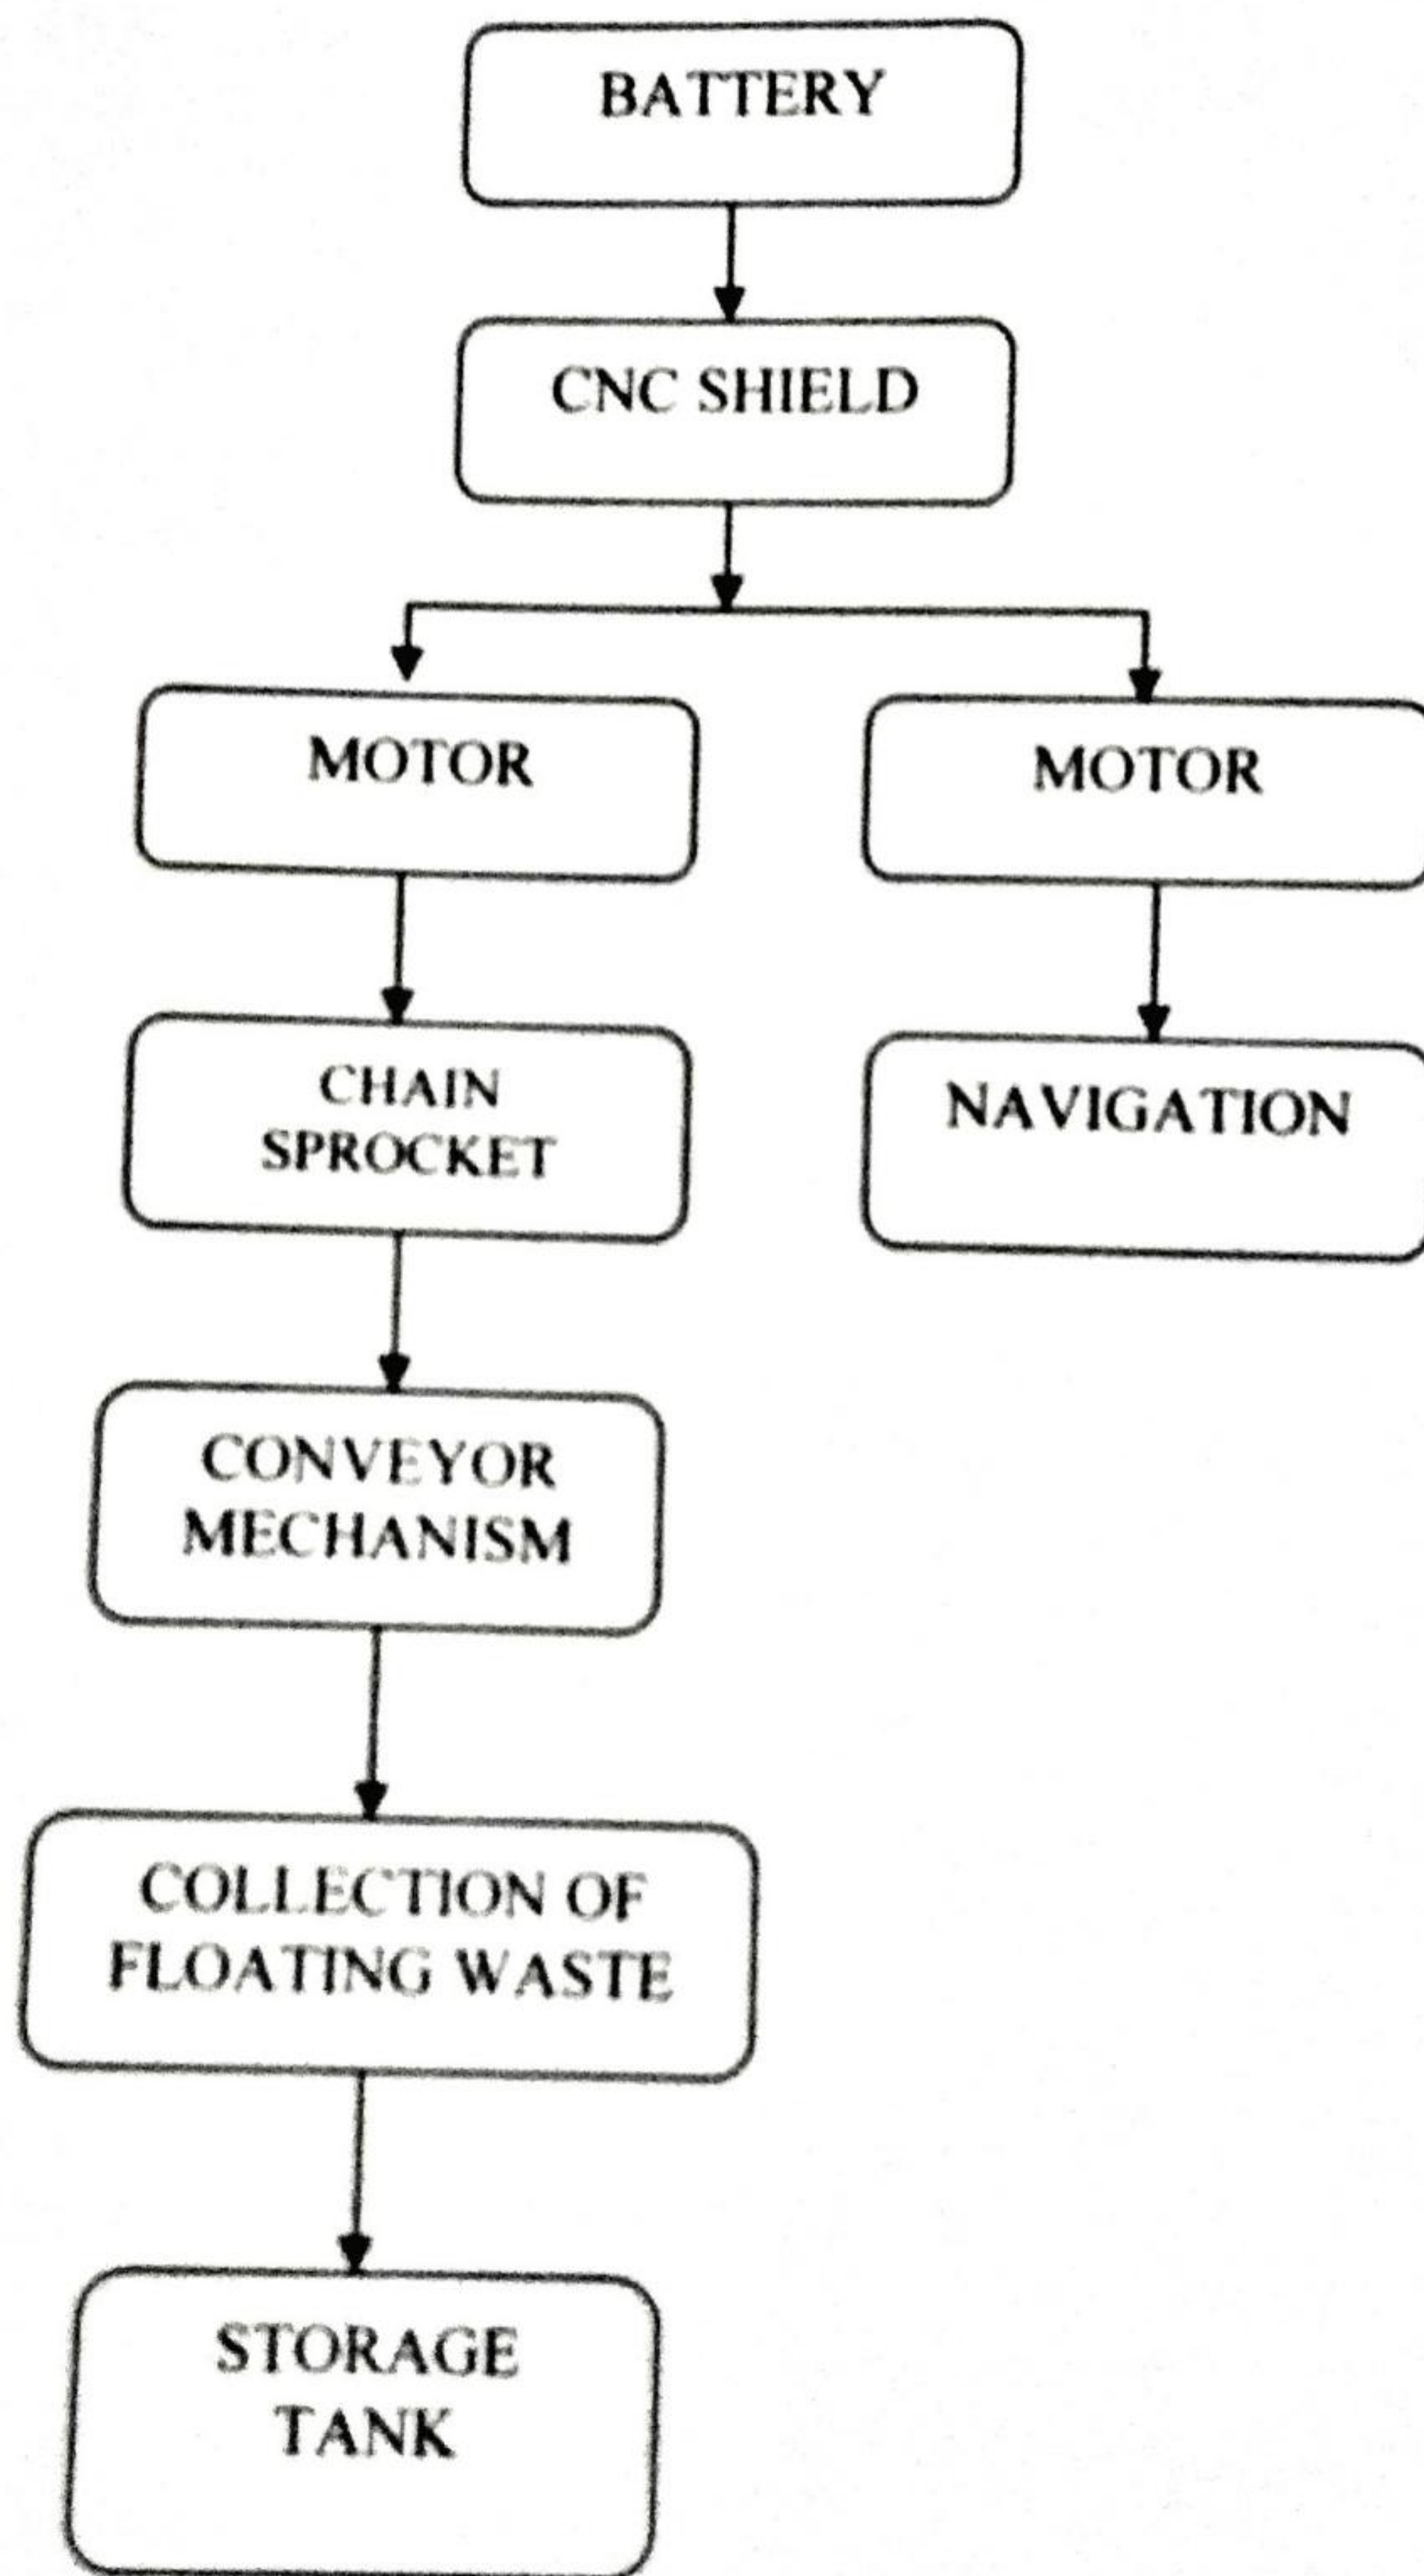

the pail lift. They clarified dynamic conduct of the pail and apparatus shaft get together. They at long last discovered the adjustment of plan parameters.

Pedersen, et.al. ^[6] expelled undesirable wonder, by utilizing chain drive reproduction program. It is utilized as a contrasting option to or in blend with physical trials. They framed a particular model of the marine motor chain drive for substantial speed frameworks. They utilized persistent contact constrain strategy for the recreation and examination. Played out a dynamic reproduction of extensive marine motor chain drives. They created novel definition for the recreation of the progression of roller chain drives utilizing a constant contact compel technique. They utilized numerical model for perform reasonable dynamic reproduction of vast marine motor chain drives, inside a direct recreation time. They likewise clarified that it is conceivable to contrast the numerical outcomes and exploratory outcomes.

H. I. Jimoh, et.al. ^[7] demonstrated the exploration was an appraisal of seepage issues in the tropical condition of Ilorin, Nigeria. With a specific end goal to accomplish the logic of the work, such an information have been sourced from coordinate hands on work. Such information incorporate seepage measurements, sorts of squanders in waste channels, issues of squanders and methods for squander administration. These information have been broke down through the utilization of engaging insights and cross organizations as a fundamental strategy for information investigation. James C. Conwell, G. E. Jhonson ^[8] proposed the outline and development of another test machine design that offers same points of interest over the customary one. The new machine and orderly instrumentation give more reasonable chain stacking and permit connect strain and roller sprocket affect checking amid typical activity. The joining of sit still sprocket permits autonomous change of test on length and preload.

FINDINGS:

MOTIVATION AND OBJECTIVE

The problem of water logging due to plastic, thermocol and metal leads to pest growth and it favors diseases like malaria, typhoid etc. This is unsafe for human life and hence the idea of this project emerged. The objective of the proposed project is to design and fabricate an automated machine for drainage cleaning in order to prevent humans from getting affected by various diseases from the infectious microbes present in the sewage while cleaning manually. This proposed system is to minimize or overcome the problem faced while using man operated machine and to minimize the increased dumping rate of waste. Not only that it can be used to clear waste in stagnant water bodies like the pond, lake etc... By this we can reduce the cost of cleaning as well as loss of human lives during the process.

EXISTING METHOD

The existing system is completely a mechanical based project. It is a stationary system, simply kept in the sewage area to collect the wastes passing over it. The chain and sprocket is used for conveyor movement, which has fitted fork plates to collect the wastes from the sewage. The rotation of the chain along with the plates will collect the floating wastes and put off the wastes in the bin that is placed at the backside of the system.

RESULT AND DISCUSSION:

Sewage blockage due to plastics and other non degradable wastes are the common cause of sewage water overflow in a particular area. When waste water pipes/drains are blocked, sewage water overflows from the pipes into our home through its plumbing system. Not only can this cause substantial property destruction, but also the reason for many disease causing bacteria which is hazardous to our health. For these important reasons, it is necessary to have sewage removal performed quickly and properly by a proper mechanism.

A. Mechanical setup

The mechanical setup is the final fabrication of the system using mechanical components that includes outer casing as shown in diagram. Once the design meets the requirements, the real time setup is fabricated.

B. Electrical setup

[Type text]

Battery is the main source of power for the entire electrical circuit design and switches are used for effective working of the circuit. A voltage regulator is used to regulate the voltage as per the requirement. RF transmitter and receiver are used for remote control operation. Thus, the complete electrical set up is shown in Image.

C. Application of Sewage cleaning machine

This machine is used in almost all types of drains (Large, Small, and Medium) and also in stagnant water bodies (Pond, Lake) is an efficient way to control the disposal of sewages with regular filtration of wastes. This is used to remove waste from river side.

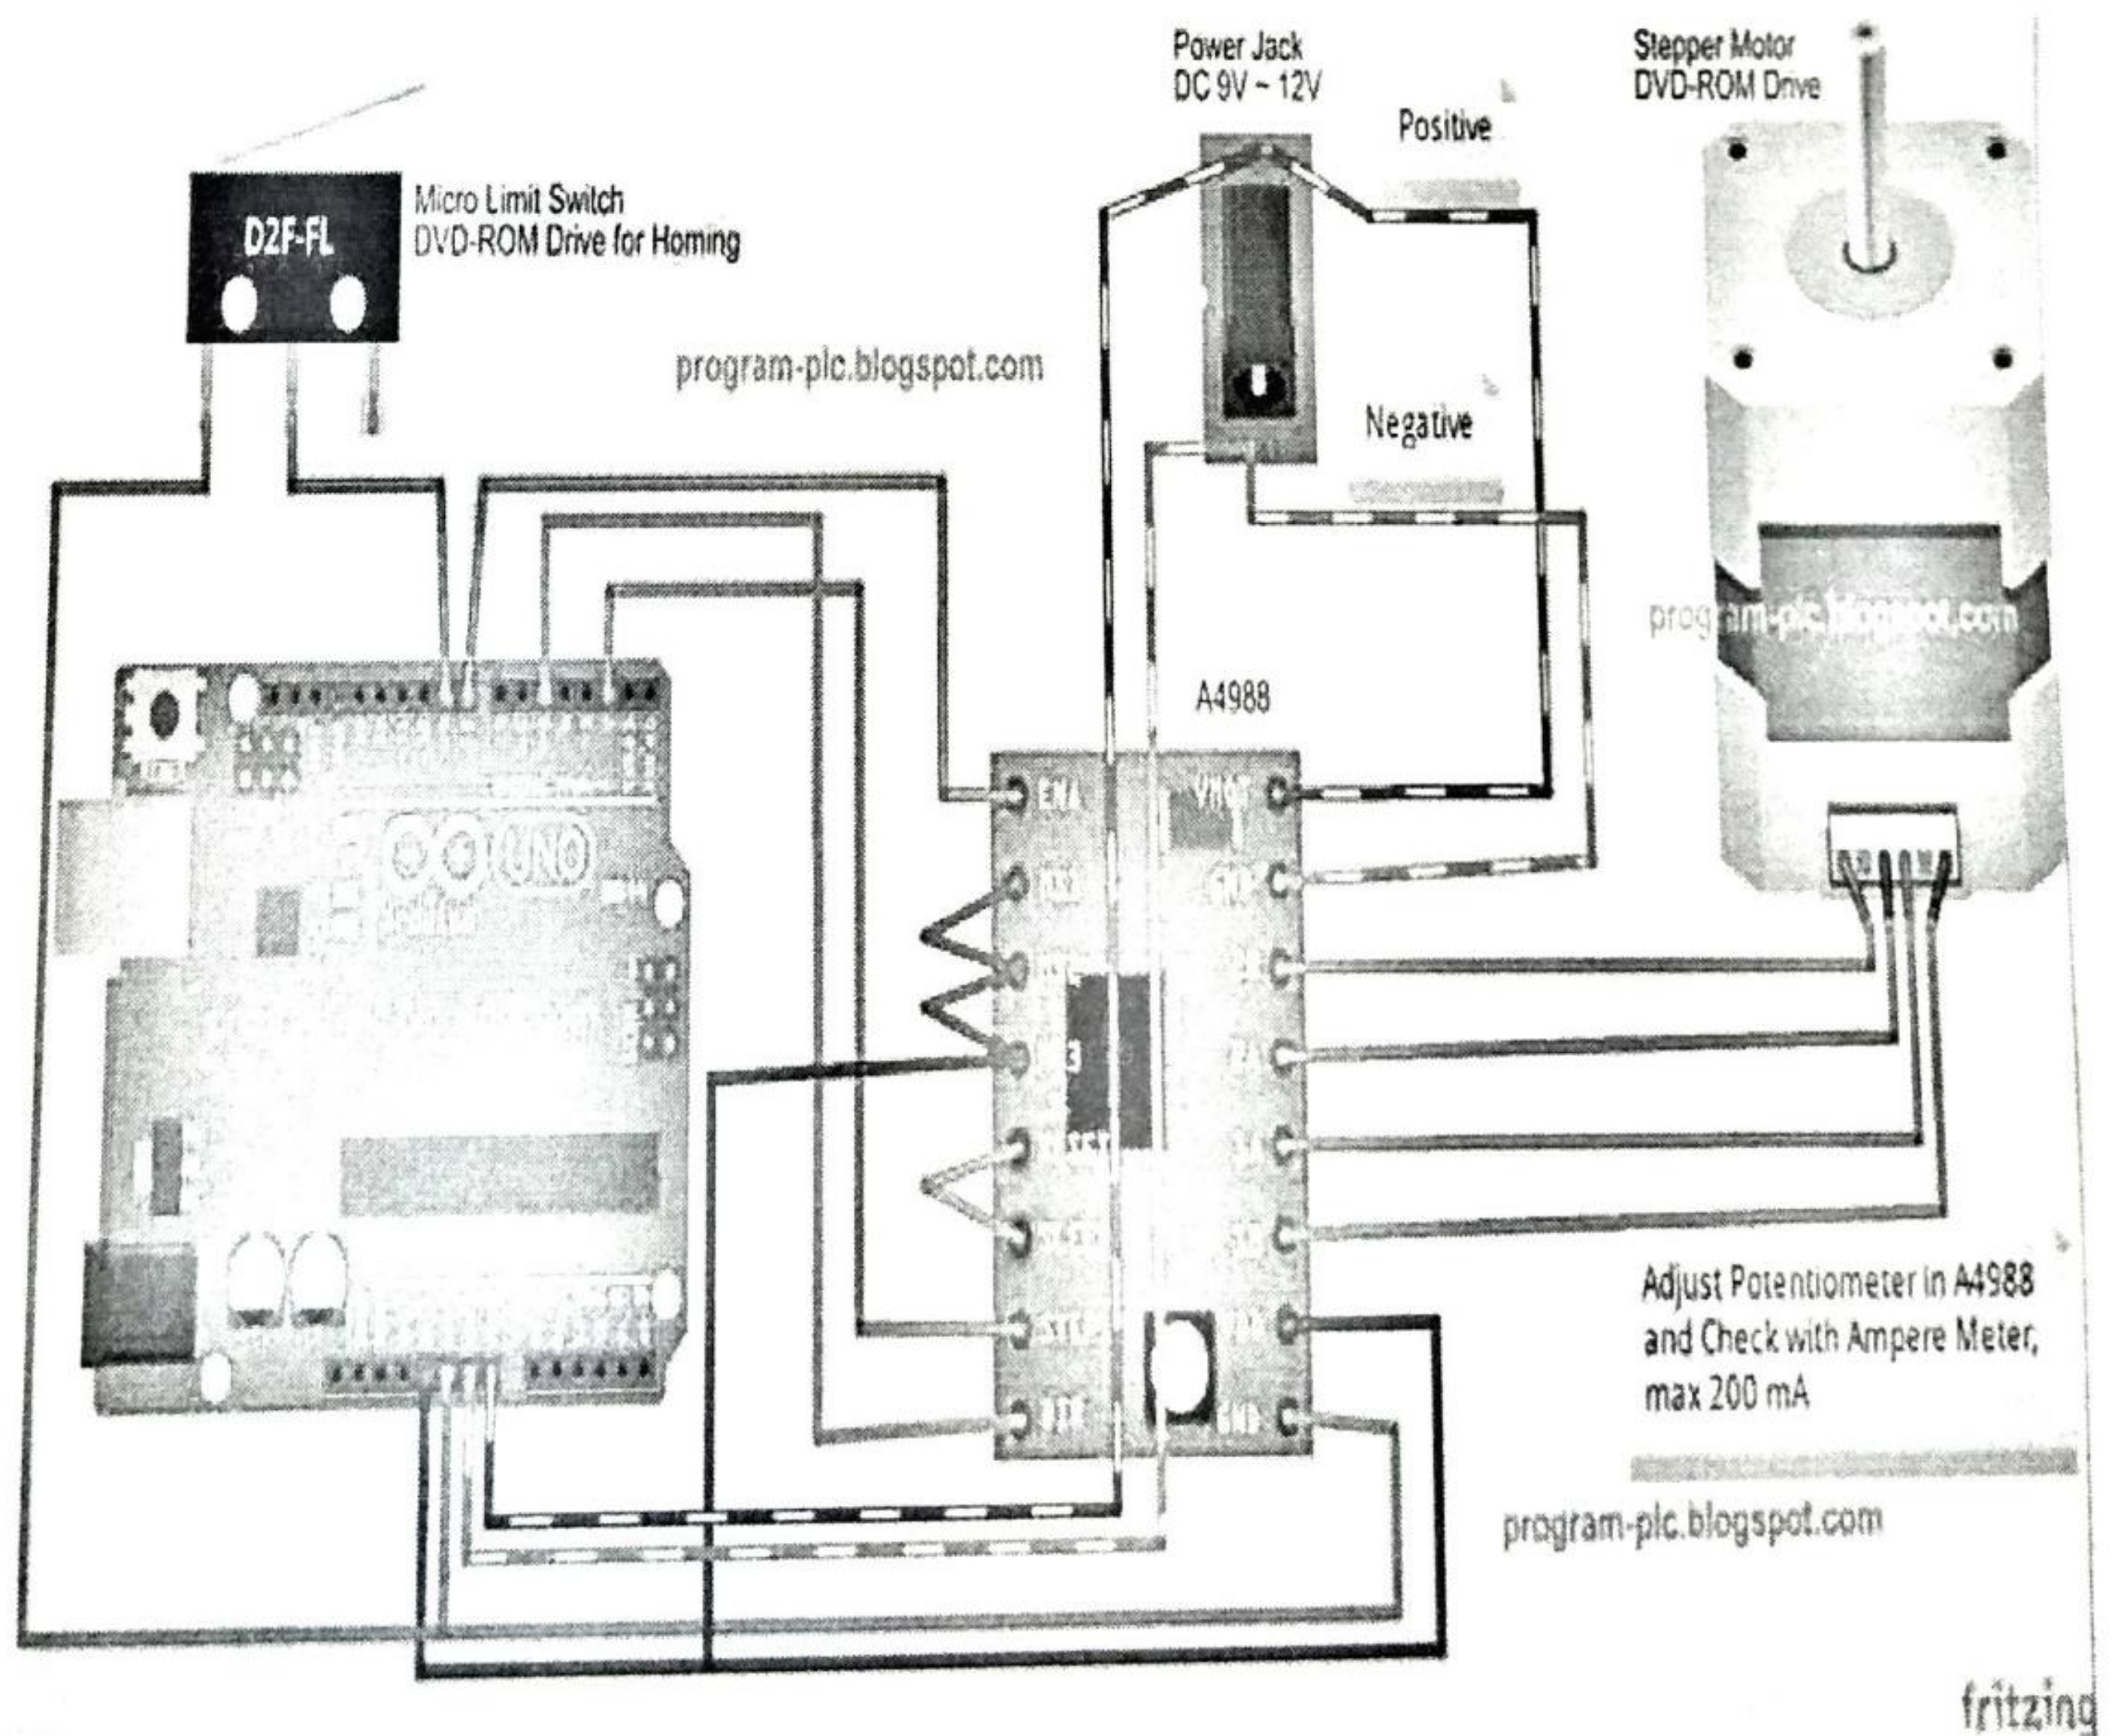

D. Advantage of Sewage cleaning machine

This cleaning system is easily operatable and cheap to fix the drainage problems. And, there is a reduction of labor oriented method of cleaning. It is a medium weighted portable machine that requires less power. Large amount of garbage is collected and sent for recycling.

RECOMMENDATIONS:

- Use of solar cell to eradicate power problems.
- Suitable coating of material should be done to avoid corrosion.
- Increase the float capacity to increase the load of waste collected.
- Increasing the power of motor to lift all kinds of loads.

ELECTRICAL SETUP:

MECHANICAL OVERALL VIEW:

CONCLUSION:

Our writing survey features the progressing headway in the waste cleaning framework. Numerous particular exact examinations have been done and classifications, for example, self-loader waste cleaning framework and its mechanization have been concentrated to an awesome profundity. We concentrate more on making the framework portable in the seepage. In the treatment arrangement of seepage Waste water control by the engine, roller chain and sprocket, lifter and the gathering receptacle to accomplish self-loader control of sewage squander water treatment. The framework can move in the deplete to gather the gliding waste in order to lessen human works. The cleaner worked move successfully amid the heavier downpours which had more volume of running water with junk and high speed.

We would like to thank TNSCST for selecting our project "SMART ELEPHANT MONITORING SYSTEM" (Project Code- EEE-079) as a funded project. We successfully completed the project. We confirm that this work is original and has not been proposed for any funding agencies. I herewith submitting a utilization certificate for our funded project. We kindly request you to consider the utilization certificate and do the needful.

Thanking you,

Yours truly,

INTRODUCTION:

India is home to between 50 and 60% of all of Asia's wild elephants and about 20% of the domesticated elephants. The elephant plays a central role in Indian life and has done for many centuries. Elephants are closely associated with religious and cultural heritage, playing an important role in the country's history.

A deadly conflict is under way between India's growing population and its wildlife confined to ever-shrinking forests and grasslands. Data shows that about one person has been killed on average every day for the past three years by roaming tigers or rampaging elephants. Statistics released by India's environment ministry reveal that 1,144 people were killed between April 2014 and May 2017. That figure breaks down to 426 human deaths in 2014-15, and 446 the following year.

There is no effective communication regarding the elephant conflicts in Pathways/Fields to the trespassers and the farmers which causes frequent and enough damage to the public, though there are very primitive methods for identification and intimation. In our proposed work, the identification of elephants is initially done by the acoustic sensor which is augmented by the ultrasonic sensor, which in turn controls the direction of the camera. The camera captures

the image of the elephant and recognizes it by using pattern matching and the information is broadcast to the farmers, trespassers and travelers.

Objectives:

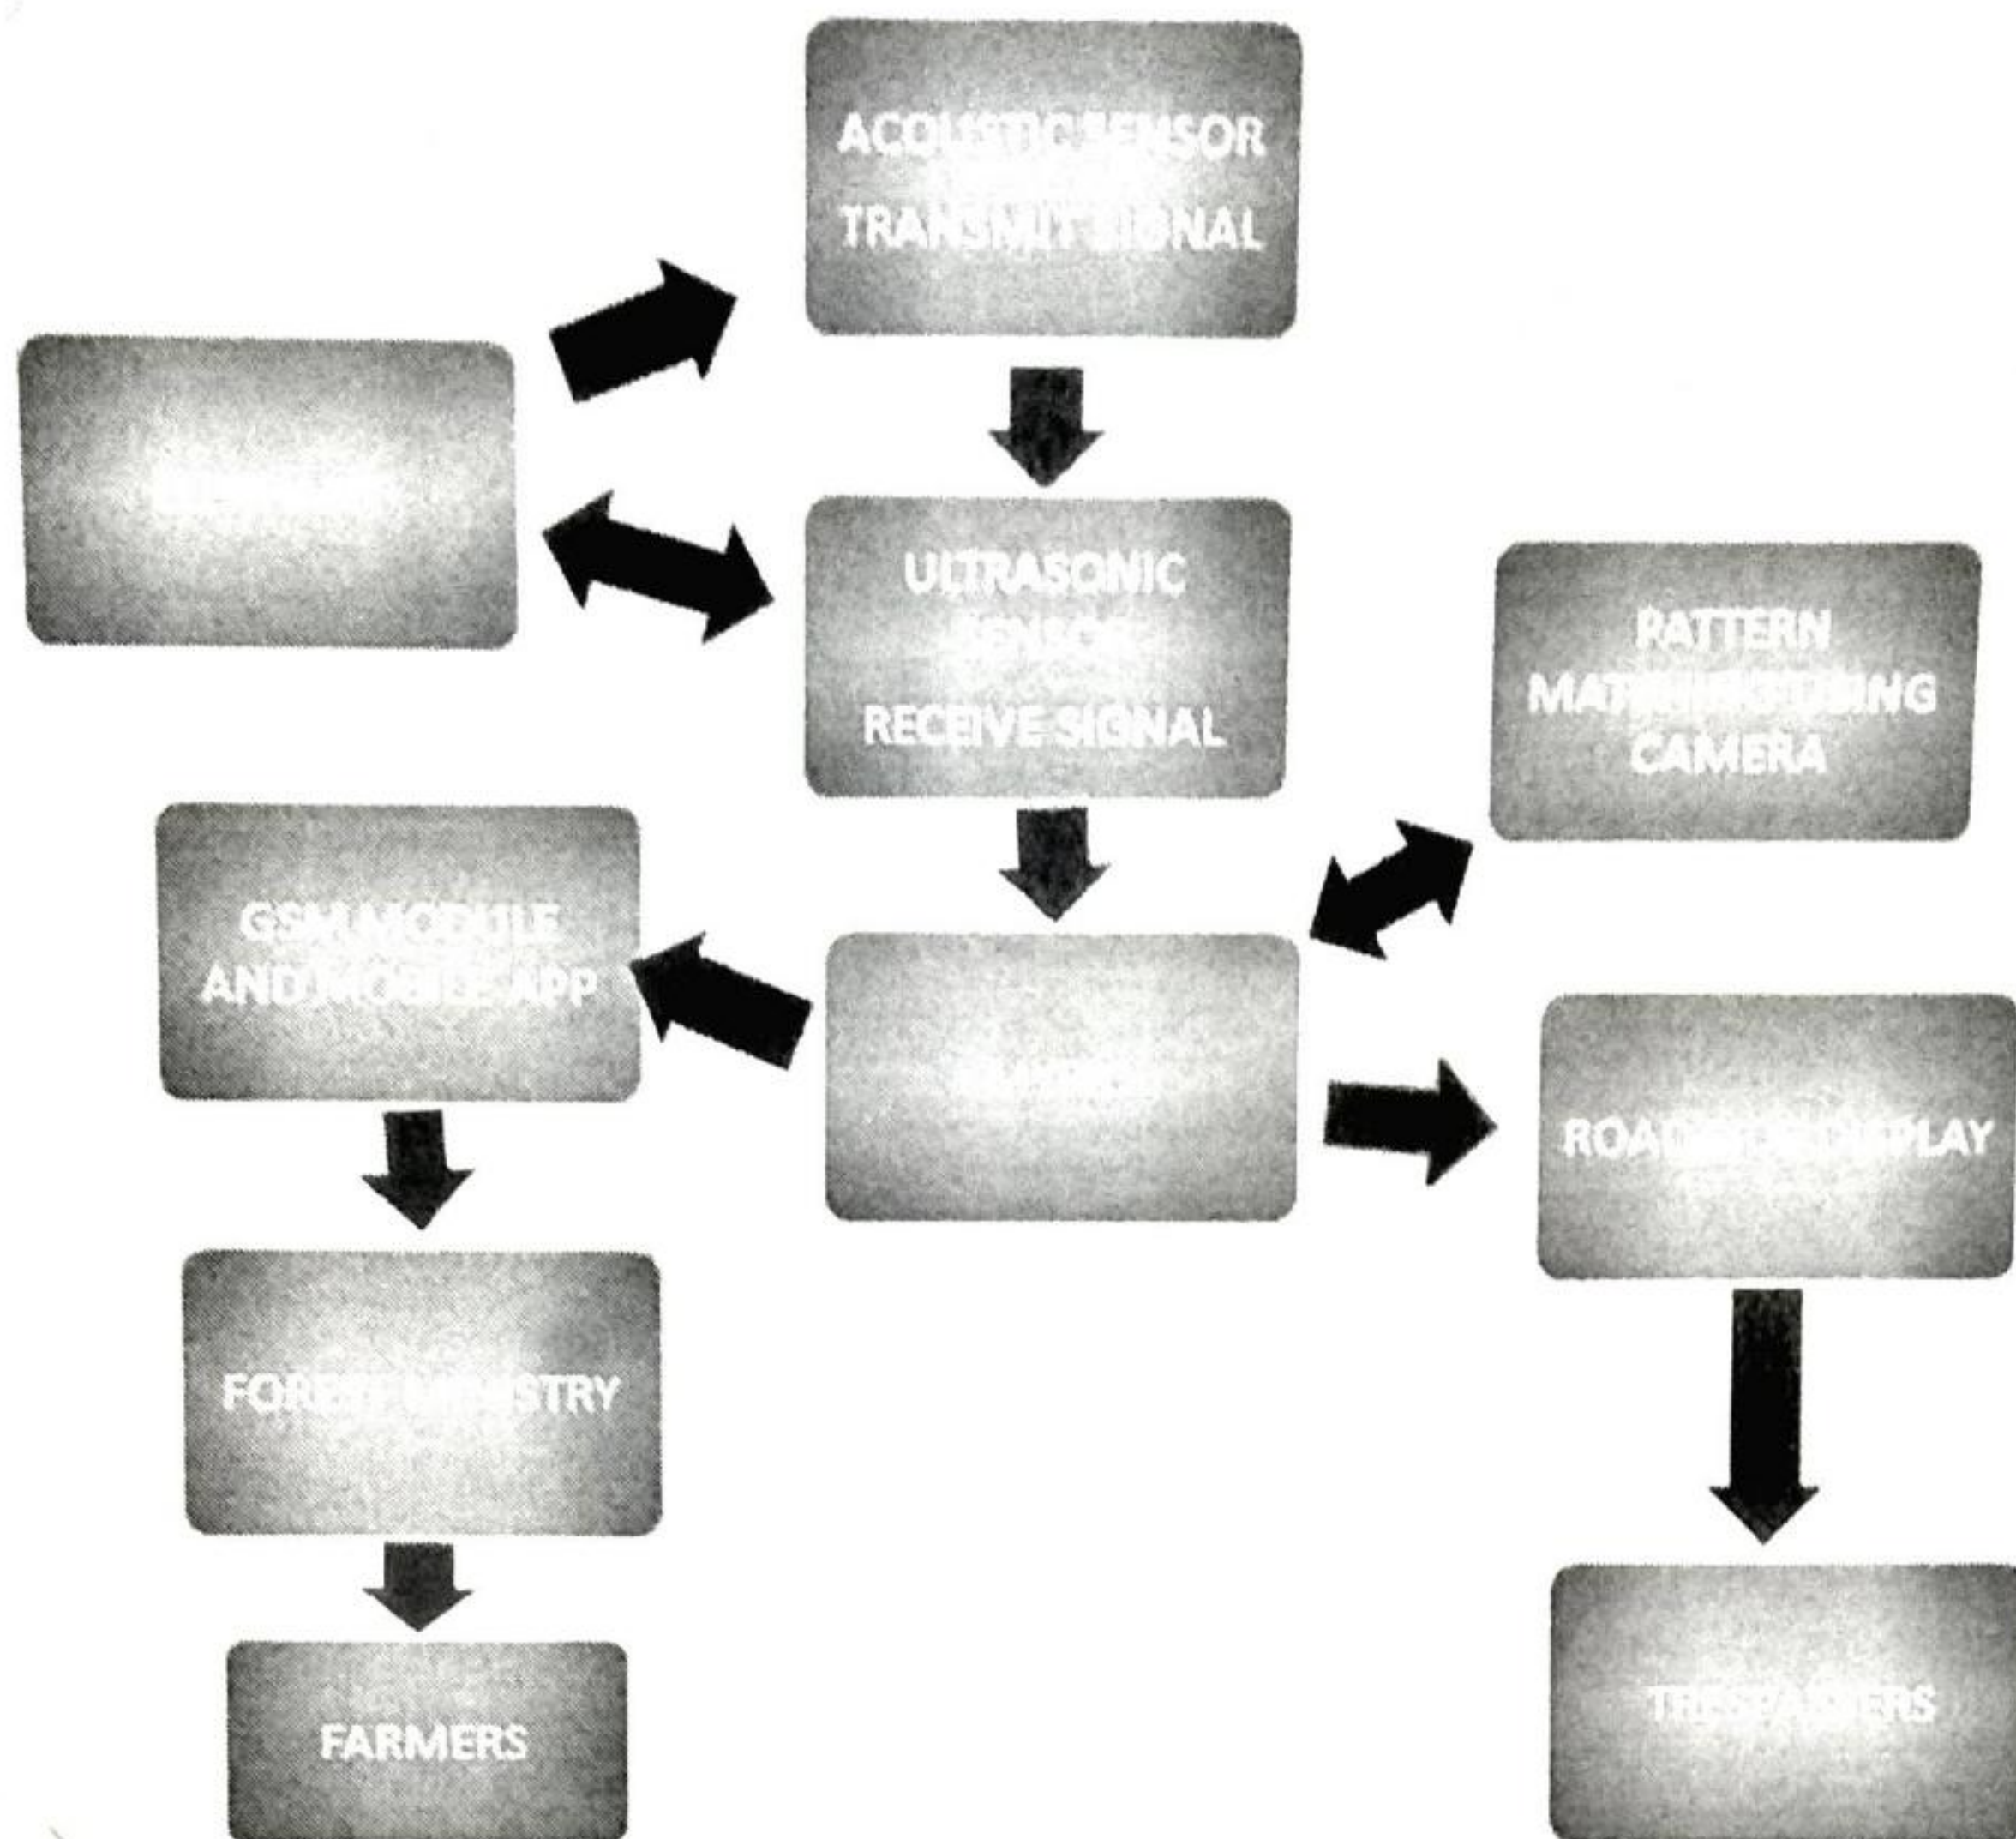

- Farmers and the villagers will be placed in a safer zone.
- We can save farm lands from elephant and also minimize the losses.
- Trespassers would travel safely.
- Necessary precautions would be taken towards the safety of wildlife conservation.

Methodology:

In this project we are going to use a new technology called Labview software. This project consists of an acoustic sensor to detect elephants infra sound and ultrasonic sensor to measure distance of elephant, for confirmation it has a high resolution camera to detect elephant. These all components are controlled by MyRio hardware using Labview software. Finally it gives the SMS indication to the required person/officers.

The details of hardware and software going to be used is furnished below.

Software	NI LABVIEW 2017 (LABoratory Virtual Instrumentation Engineering Workbench).
NI Hardware	My RIO toolkit.
Sensors	Acoustic sensors, Ultrasonic sensors.
Additional Device	Camera.

USE CASE DIAGRAM

Our proposed project consists of the following three modules.

DATA ACQUISITION MODULE:

- Generally elephant produces sound (12-22 Hz), which is less audible to human beings. Acoustic sensor detects the low frequency infra sound waves created by the elephants. Audio range detect by the sensor is between : $3.8 \times 10^3 - 4.2 \times 10^3$ m/s. Operating frequency is 5GHz.
- After the detection of sound by acoustic sensor, Ultrasonic sensors detects distance up to 3-15 feet is used to find the time difference between sound waves created and received at a particular location. This sensor senses with in the range of 0.05- 5 m/s.

CONTROL MODULE:

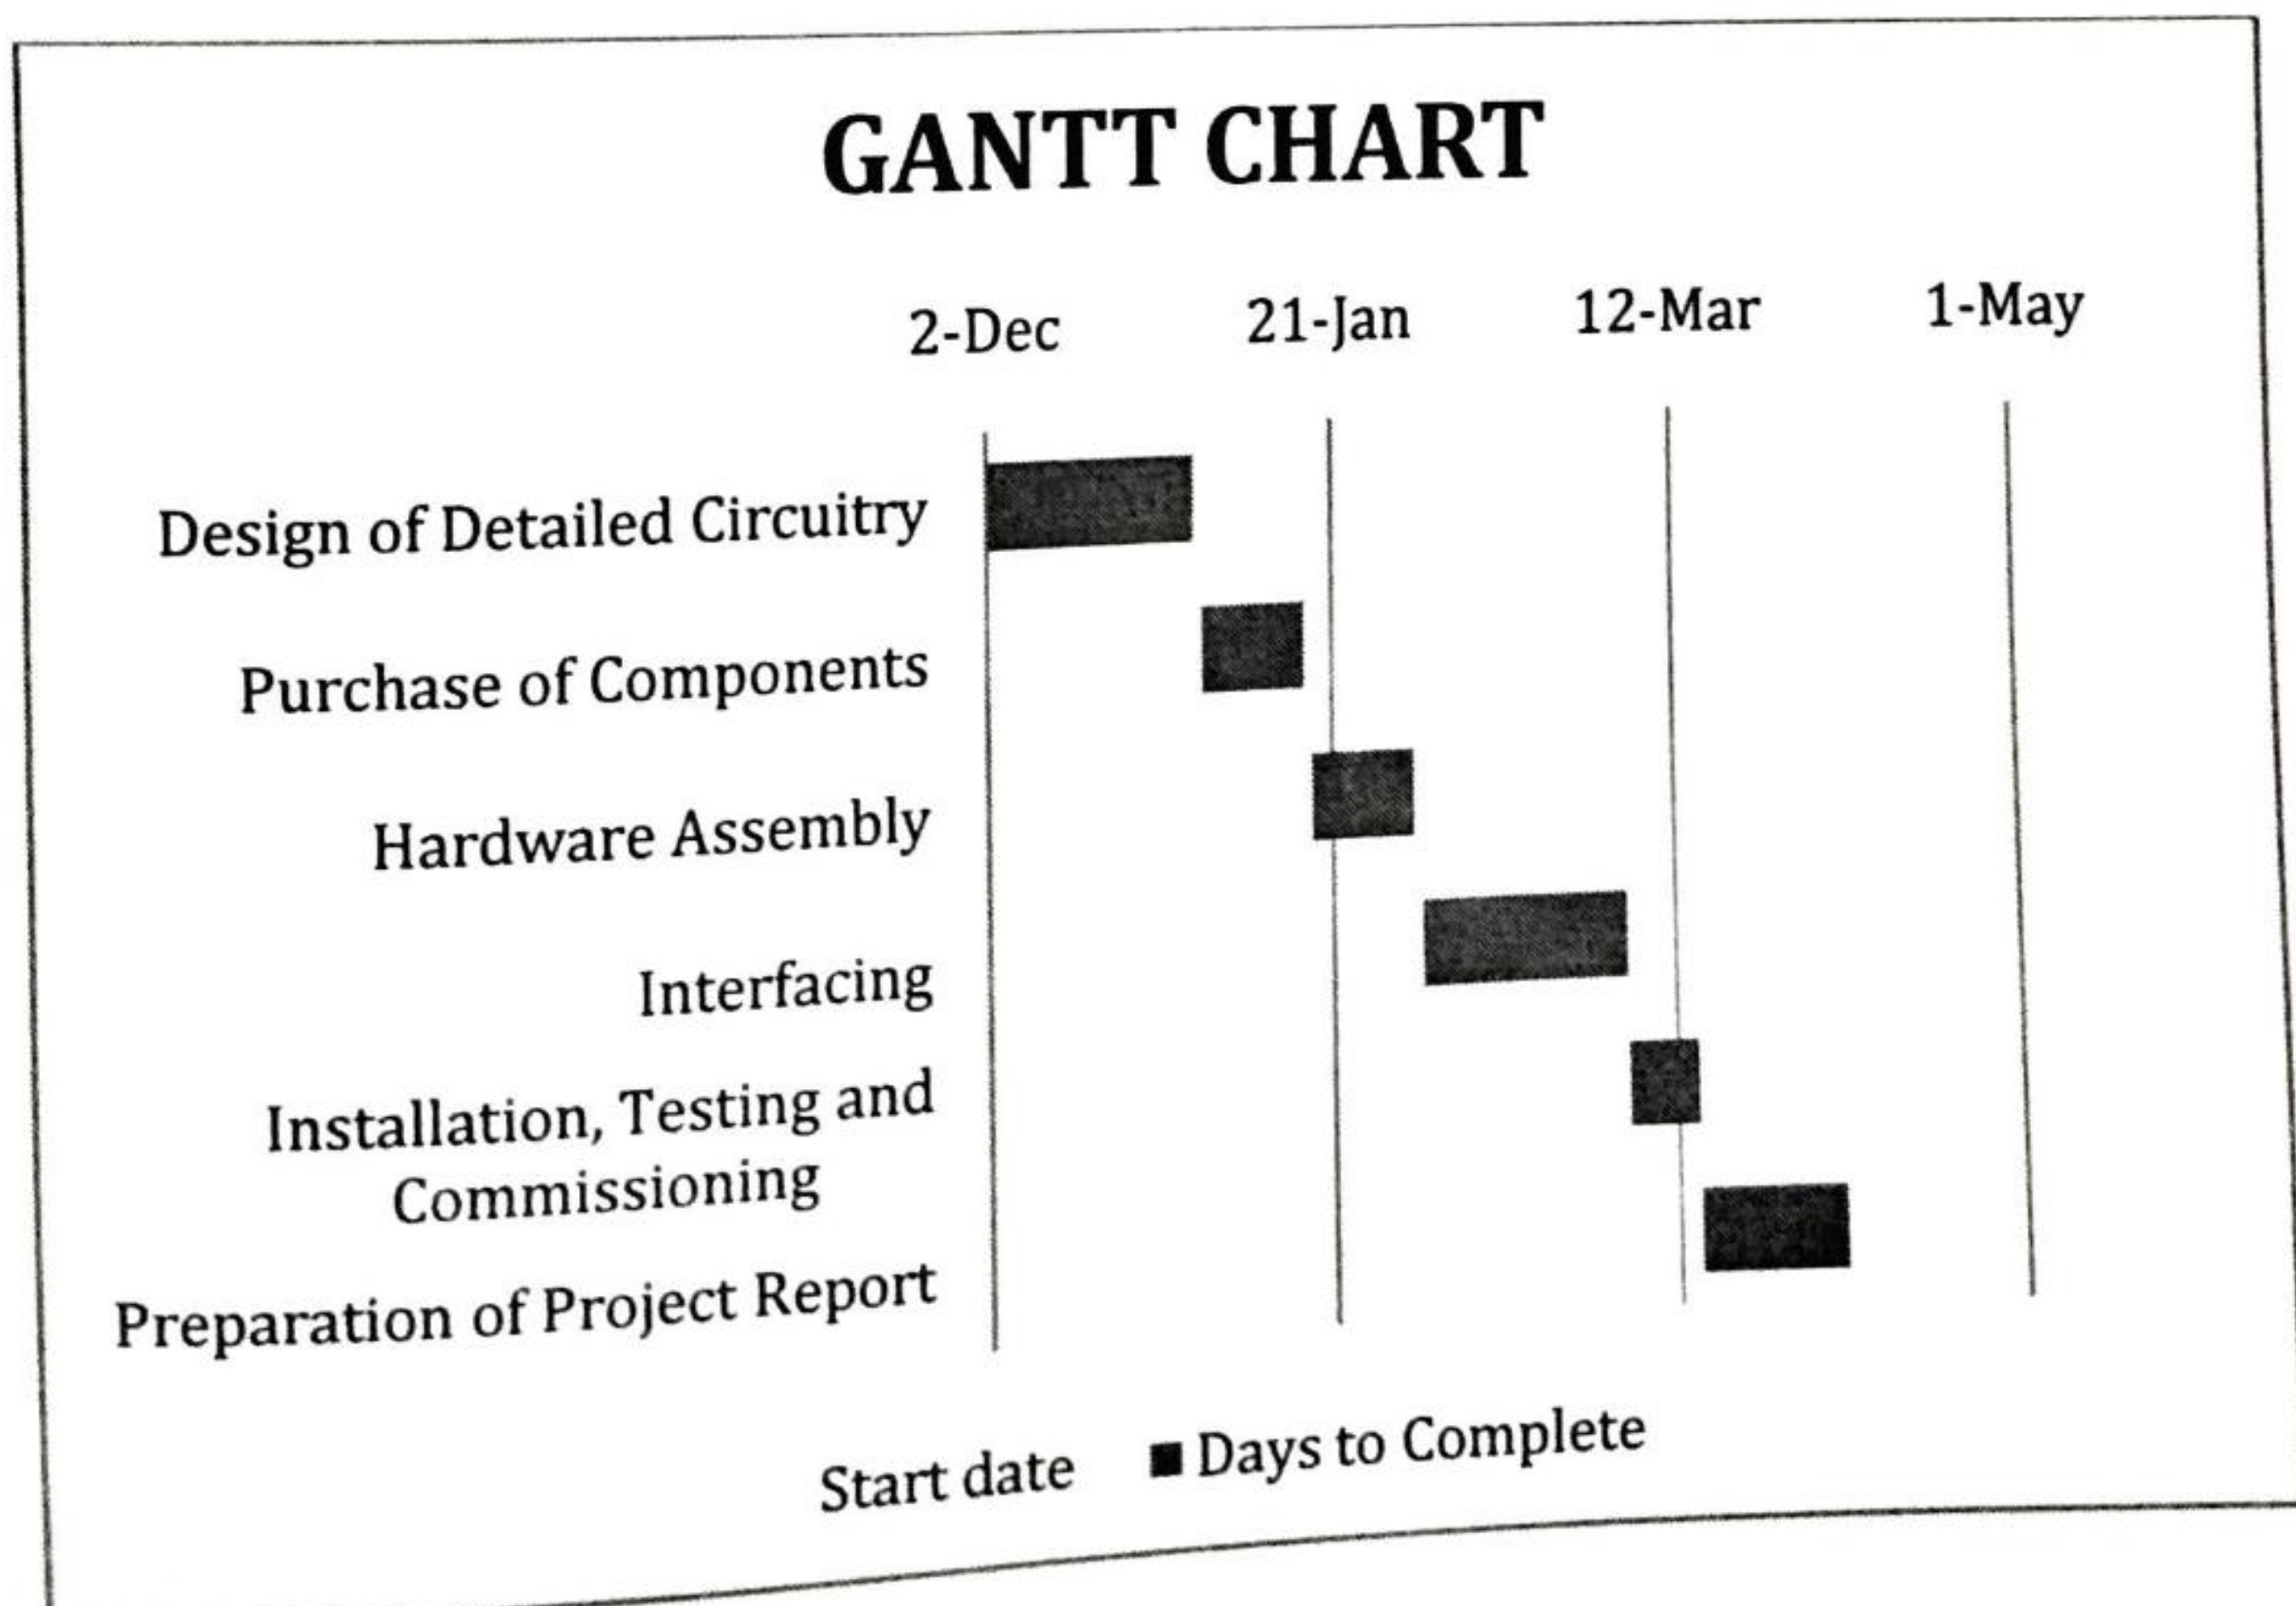

- A camera with resolution (1080*720, 2MP), detects the movement of elephants.
- The image captured by the camera is processed using pattern matching algorithms.
- All the sensors and camera are controlled using Labview software.
- Sensors and Software interface using Myrio Hardware.

ACTUATION MODULE:

- After it identifies the elephant it sends the alert information to all the demanding users through SMS using GSM module.

WORK PLAN

S.NO	Nature Of Work	Duration Of Completion	Deadline
1	Design of Detailed Circuitry	One Month	December 12, 2018
2	Purchase of Components	2 Weeks	January 15, 2019
3	Hardware Assembly	2 Weeks	February 08, 2019
4	Interfacing	One Month	March 08, 2019
5	Installation, Testing and Commissioning	10 Days	March 18, 2019
6	Preparation of Project Report	3 Weeks	April 07, 2019

BUDGET

Estimation of Expenditure

S.NO	Name Of The Equipment	Required Quantity	Cost Per Quantity	Overall Cost in Rs
1	Acoustic Sensor	1	200	200
2	Ultrasonic Sensor	1	350	350
3	Camera	1	2540	2540
4	Breadboard Mini	2	50	100
5	GPS Modem	1	1060	1060
6	Arduino Board	1	600	600
7	Other Expenses(Battery, Wire, etc;)	-	2000	2000
			TOTAL	6850

Conclusion

Elephants wander beyond its boundaries for food and water in the agricultural areas and nearby forest areas. Our project helps to avoid the human elephant collision in the nearby areas around forest. It works efficiently and quickly. The cost is also economical when compared with the safety and the security of the humans.

Subject: Release of a sum of Rs. 636908/- (Rupees Six lakh thirty six thousand nine hundred eight only) being the 1st installment of the total grant of Rs. 1273817/- (Rupees Twelve lakh seventy three thousand eight hundred seventeen only) to conduct the program under the scheme Skill and Personality Development Program Centre for SC/ST students (SPDC) for the year 2018-19 payable during the current financial year 2019-20-reg.

Sir,

With reference to the proposal submitted by the institute, this is to convey the sanction of the Council for payment of Rs. 636908/- (Rupees Six lakh thirty six thousand nine hundred eight only) as 1st installment out of the total approved grant-in-aid of Rs. 1273817/- (Rupees Twelve lakh seventy three thousand eight hundred seventeen only) for running of Skill and Personality Development Program Centre for SC/ST students under the Scheme Skill and Personality Development Program Centre for SC/ST students (SPDC), as per details given below:

1.	Name and address of the Beneficiary Institution:	Director/ Principal/ Registrar, Prathyusha Engineering College, Poonamalee-Tiruvallur High Road, Aranvoyaluppam, Tiruvallur, Tamil Nadu-602025		
2.	Permanent ID of institute:	1-16570211		
2.	Title of Programme:	Developing a Centre Of Excellence For Skill And Personality Development Programme Centre For SC/ST Students		
3.	Name of Coordinator:	Dr. Padmapriya S.		
4.	Duration of the Programme:	3 Years		
5.	Grant-in-aid Sanctioned:	Total: Rs.1273817/-	Non-Recurring (85%): Rs.1082745/-	Recurring (15%): Rs.191072/-
6.	Amount to be released during the year 2019-20:	Total: Rs.636908/-	Non-Recurring (85%): Rs.541372/-	Recurring (15%): Rs.95536/-
7.	Sanctioned grant-in-aid is debitable to:	Major Head 601.1 (b) SPDP Plan Head		

- The amount of the grant shall be drawn by the Drawing and Disbursing Officer, All India Council for Technical Education, New Delhi on the grant-in-aid bill and shall be disbursed to and credited to the account of Director/Principal/Registrar of the Institute through RTGS.
- This grant-in-aid is being released in conformity with the terms & conditions as well as norms of the scheme as already communicated, and also being communicated in this letter.

The instructions/guidelines to be followed by University/Institution

1. Release of funds

- The Principal/ Director of the institute and the Coordinator of the program are hereby requested to verify the correctness of the undermentioned bank account/ RTGS details submitted by them along with the Proposal, against which the grant is being released:

In case of any omission the same should be reported to AICTE immediately.

- b) This sanction is issued in exercise of the powers delegated to the Council and other terms and condition laid down in the guidelines of the scheme.

II. Schedule of Funding and Duration of Program

- a) 1st year: 1st installment (50% of the sanctioned grant) is being released as advance.
2nd Year: 2nd Installment (40% of sanctioned grant) after receipt of requisite documents.
3rd Year: 3rd installment (10% of sanctioned grant) after receipt of requisite documents.
- b) The date of release of the grant by AICTE shall be taken as the date of commencement of the scheme.
- c) The duration of the program is for three years.

III. Submission of documents by college/institution to AICTE on receipt of grant

- a) Acknowledgement of receipt of the grant and acceptance of terms and conditions within 15 days of receipt of Sanction Letter.
- b) Institute shall send a confirmation to AICTE within 2 months of receipt of grant that the sanctioned program has been started/is in progress.
- c) Intimation regarding the constitution of Program Evaluation Committee (PEC).
PEC is required to be constituted at institutional level. The constitution of the PEC shall be as under:
- Principal/Director/Registrar of the institution (Chairperson)
 - Coordinator of the scheme (Member Secretary)
 - Two HoDs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor.

IV. Maintenance of accounts

- a) The Institute shall strictly follow the provisions laid down in the scheme document and Sanction Letter No. F. No. 65-6/RIFD/SPDC/Policy-1/2018-19 dated- 23.12.2019 issued by this office. All correspondence related to the scheme must contain this number along with year of sanction of the scheme; failing which correspondence will not be entertained.
- b) Funds covered by this grant shall be kept separately and would not be mixed up with other funds, so as to know the amount of interest accrued on the grant.
- c) The University/College/Institute shall maintain proper accounts of the expenditure out of the grant, which shall be utilized only on approved items of expenditure (list enclosed).
- d) The Council or its nominee shall have the right to check/verify the account to satisfy that the fund has been utilized for the purpose for it was sanctioned. The accounts of the institute will be open for test check by the Council or Controller & Auditor General of India or any other officer designated by them.

V. Refund of grant to AICTE (by way of a demand draft in favour of Member Secretary, AICTE, New Delhi)

- a) If the program is not started within six months of the receipt of the grant, the released amount, along with interest accrued thereon, has to be returned to AICTE.
- b) The entire amount of grant already released, along with interest accrued thereon shall be refunded to AICTE if mandatory documents are not submitted by the institute beyond one year of completion of program.

- c) It may be ensured that the scheme is completed within the stipulated time. If the scheme is not completed in time, no further extension will be granted in any case and institute has to refund the entire amount to AICTE.

VI. Submission of documents by institution in subsequent years

The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of subsequent year:

- a) The Annual Progress Report (APR) in the prescribed format along with Statement of Expenditure and Audited Utilization.
- b) Utilization Certificate (UC) supported by Audited Statement of Expenditure to the effect that the grant has been utilized for the purpose for which it has been sanctioned shall be furnished to the AICTE. It should contain the head-wise break up of expenditure made from the grant-in-aid provided by the Council. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address.
- c) Scheme Completion Report (SCR) in the prescribed format along with the copies of invoice/bills for the equipments purchased and copy of stock entry register where entry of the equipments have made duly verified. Audited Statement of Expenditure indicating expenditure incurred in the total duration of the project in the prescribed format and GFR-19 shall be submitted to the Council. Photocopies of formats are enclosed.
- d) A complete Status Report of the project indicating the activities undertaking, number of students benefited, laboratory works photographs of students, together with their views.
- e) Report of Program Evaluation Committee (PEC).
- f) The minutes of the meetings of Program Evaluation Committee (PEC) are to be submitted to the Council at the end of the scheme along with other mandatory documents.
- g) The University/Institution is expected to submit the above said mandatory documents viz. Utilization certificate, Expenditure Statement and completion certificate etc. within one month of completion of SPDC Scheme. However, delay of further 2 months may be condoned by AICTE in special circumstances as explained by the institute. Delay in submission of documents after three months of the completion of the SPDC scheme shall invite a penalty of 10% of the total sanctioned amount of the SPDC scheme, to be deducted from the balance amount of 2nd installment.

VII. General Instructions

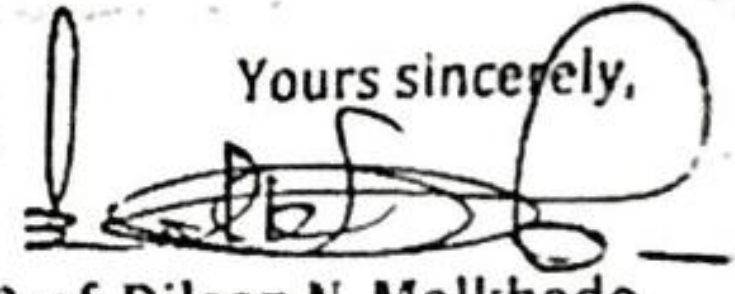

- a) The amount of interest accrued on the grant should be treated as part of the grant to be utilized for that particular scheme. However, the interest amount accrued along with grant disbursed should not exceed the total grant sanctioned for the scheme. The Institute receiving the grant should reflect the same in the audited statement of accounts/ utilization certificate and may either refund the interest amount to AICTE or AICTE should adjust the same in the next installment of grant before its release.
- b) Any expenditure incurred prior to the issuance of the sanction letter will not be allowed to be adjusted in the grant.
- c) Any unavoidable circumstantial change in the scheme with respect to name of Scheme Coordinator for the SPDC scheme would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council.
- d) The grantee shall maintain an audited record of assets acquired wholly or substantially out of the grant-in-aid and a register of assets shall be maintained by the institute in the prescribed form i.e. GFR-19.
- e) The University / Institute receiving grant under SPDC is expected to put up a plaque at the main entrance of the Lab/Department, which has been modernized using the grant. All the equipment procured through the scheme should be super scribed with AICTE scheme file number.

Dated: 23rd December, 2019

1.	Name and address of the Beneficiary Institution:	PRATHYUSHA ENGINEERING COLLEGE, POONAMALLEE - TIRUVALLUR HIGH ROAD ARANVOYALKUPPAM TIRUVALLUR - 602 025, TIRUVALLUR-602025, TIRUVALLUR, Tamil Nadu
2.	Duration of the scheme:	2 Years
3.	Total Grant-in-aid Sanctioned:	Rs. 716667/-
4.	Amount to be released during the year 2019-20:	Rs. 716667/-
5.	Sanctioned grant-in-aid is debitable to:	Major Head 601.0 (b) & (c)

- The amount of the Grant shall be drawn by the Drawing and Disbursing Officer, All India Council for Technical Education on the Grant-in-Aid bill and shall be disbursed to and credited to the account of Director/Principal/Registrar of the Institute through RTGS/PFMS.
- This Grant-in-Aid is being released in conformity with the terms & conditions as well as norms of the scheme as already communicated, and also being communicated in this letter.

Instructions/guidelines to be followed by University/Institution

I. Release of funds

- The Principal/ Director of the institute and the Coordinator of the project are hereby requested to verify the correctness of the under mentioned bank account/ RTGS details submitted by them along with the proposal, in which the grant is being released:

Institute PAN No.	Bank Name	Bank Branch Name	Bank Branch Address	Account Holder Name	Account Type	Account Number	IFSC Code
AAATP5521H	CITY UNION BANK	Ashok Nagar	New No. 51, Old No.12, Ashok Manasarovar Ground Floor, 1st Avenue 100 Feet Road, Ashok Nagar, Chennai-600083	PRINCIPAL PEC	Current Account	510909010103675	CIUB000130

In case of any omission the same should be reported to AICTE immediately.

- The sanction is issued in exercise of the powers delegated to the council and other terms & conditions laid down in the guidelines of the scheme.

- c. 100% Recurring amount as grant-in-aid is being released to AICTE approved institutions under the scheme. There is no non-recurring amount.

II. Maintenance of accounts

- The Institute shall strictly follow the provisions laid down in the scheme document and sanction order No. F.No. 72-15/RIFD/Prerana/Policy-1/2018-19 dated ____ 2019 issued by this office. All correspondences related to the scheme must contain this number along with year of sanction of the scheme; failing which correspondence will not be entertained.
- Funds covered by this grant shall be kept separately and would not be mixed up with other funds, so as to know the amount of interest accrued on the grant.
- The College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on the scheme.
- The Council or its nominee shall have the right to check/verify the account to satisfy that the fund has been utilized for the purpose for which it was sanctioned.
- The date of release of the grant by AICTE shall be taken as the date of commencement of the scheme. The Principal / Director / Registrar shall intimate about the receipt of the grant to AICTE. Any expenditure incurred prior to the issuance of the approval letter will not be allowed to be adjusted in the grant and if the Institution does not take the scheme work within six months of the receipt of the grant, the approval shall ipso facto lapse.
- The amount of interest accrued on the grant should be treated as part of the grant to be utilized for that particular scheme. However, the interest amount accrued along with grant disbursed should not exceed the total grant sanctioned for the scheme. The Institute receiving the grant should reflect the same in the audited statement of accounts/ utilization certificate and may either refund the interest amount to AICTE.
- After receipt of the grant from AICTE, the Institute shall send a confirmation to AICTE within 2 months of receipt of grant that the sanctioned scheme has been started/is in progress.
- The grant is intended to cover items of expenditure connected with the Prerana Scheme such as Honorarium to the eminent faculty members invited for conducting sessions @ Rs. 2000/- per class of minimum 2 Hours. No TA/DA will be paid. Students will be paid the application fee for such exams through this scheme.

III. Instructions for Implementation of scheme

- The parent institution shall provide adequate space for conducting the classes for SC/ST students.
- For smooth functioning of scheme and to meet its objectives effectively, it is essential to assign an adequate man power in the form of dedicated faculty as Principal Coordinator and support staff.
- The Principal Coordinator shall devise a feed-back mechanism to assess the importance of the programme. The feedback shall be obtained after each programme from each of the SC/ST students. If need be, the centre can update its course curriculum of these programmes.
- Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.

IV. Refund of grant (by way of a demand draft in favour of Member Secretary, AICTE, New Delhi)

- In any case, if the institute is required to refund the grant or interest accrued thereon or balance amount, the amount will be refunded to AICTE.
- If the college/institute does not have the Letter of Approval (LOA) or Extension of Approval issued by AICTE for the academic year 2019-20, the fund released should be immediately refunded to AICTE with interest accrued thereon.
- If scheme is not started within six months of the issuance of this Offer Letter, the released amount, along with interest accrued thereon, has to be necessarily returned to AICTE.
- It may be ensured that the scheme is completed within the stipulated time. If the scheme is not completed in time no further extension will be granted in any case and institute has to refund the entire amount to AICTE.
- As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.

V. Submission of documents by college/institution after completion of Scheme/Subsequent years.

The following mandatory relevant documents are required to be submitted by the college/institution within one month of the completion of the scheme:-

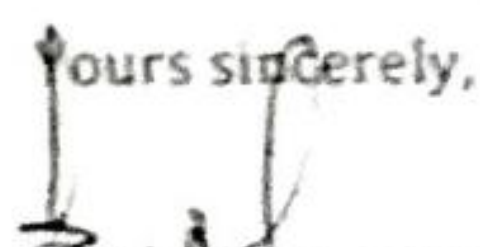

- a Feedback form in the prescribed proforma.
- b Original Statement of actual expenditure in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. The purpose of this offer is to promote research and development activities in various areas of technical education by providing opportunity to meritorious faculty members to interact at International level and update their knowledge and expertise in the concerned fields/ areas of specializations.

HEAD	AMOUNT OFFERED BY AICTE (IN Rs.)
Air-Fare*	Rs. 96,667/- as recommended by the Expert or the actual expenditure incurred under Air fare (preferably by Air India) registration fee and per diem or requested amount in application, whichever is less.
Registration*	
Per-Diem*	

The instructions/guidelines to be followed by the Applicant

I Release of funds and maintenance of accounts

- a. The Principal of the institute and the Applicant of the Conference/Workshop are requested to verify the correctness of the under mentioned bank account/ RTGS details submitted by them along with the Proposal, in which the grant is to be released: -

Institute PAN No.	Bank Name	Bank Branch Name	Bank Branch Address	Account Holder Name	Account Type	Account Number	IFSC Code
AAATP5521H	CITY UNION BANK	ASHOK NAGAR/ TAMIL NADU	ASHOK NAGAR/ TAMIL NADU CHENNAI CHENNAI TAMIL NADU	PRINCIPAL PEC	Current Account	510909010103675	CIUB0000130

In case of any omission the same should be reported to AICTE immediately.

- b. The financial assistance being given can be used for Air Fare (from the nearest airport from place of posting to the nearest airport to the venue of visit), Registration fee (subject to submission of money receipt) & Per Diem allowances as per OM No .7(4) dated 24.09.2000 and any subsequent modification being issued thereon for the days of conference plus maximum two days for journey. The beneficiary has to travel by shortest route under excursion economy class of Air India. On sectors where Air India does not operate, a certificate from Air India Office has to be taken (Certificate from Travel Agent will not be accepted). If the journey is performed partly by Air-India and partly by any other airline, the ticket for the entire journey should be purchased from Air India and not the collaborating airline.
- c. If the assistance received from other sources and the amount offered by AICTE together exceeds the actual expenditure, AICTE support will be limited only to the actual expenditure incurred.
- d. The above offer is strictly limited to participation in the conference for which the travel has been approved by the AICTE. In case the beneficiary is unable to visit the place of conference and utilize the offered amount, immediate information should be sent to AICTE.
- e. The reimbursement will be limited to the extent recommended by the duly constituted expert committee.
- f. The beneficiary should submit a certificate that the amount claimed from AICTE, has not been claimed/reimbursed from any other agency.

II Disbursement of funds to the Institution

- a. The amount of the grant shall be drawn by the Drawing and Disbursing Officer, All India Council for Technical Education on the grant-in-aid bill and shall be disbursed to and credited to the Registrar/Director/Principal of the institute through RTGS.
- b. This grant-in-aid will be released in conformity with the terms & conditions as well as norms of the scheme as already communicated and also being communicated in this letter.
- c. The sanctioned amount is debitable to the Non-Plan Head of the scheme of Travel Grant (TG) and is valid for payment during the financial year 2019-20.
- d. The admissibility of claim will be calculated as per the norms of AICTE only. If the expenditure incurred is less than the amount offered, the reimbursement will be limited to the actual expenditure amount.

III Submission of documents by the Applicant

- a. The claims for reimbursement (in the enclosed format) duly supported by the following relevant documents should be sent to AICTE through the Head of the Institution in the enclosed Performa within two months of the completion of the visit: -
 - i) Certified attested copy of passport indicating visa/immigration as proof of undertaking journey.
 - ii) Self-attested certificate for the journey performed.
 - iii) Statement of expenditure incurred against the amount of travel grant offered under different heads.
 - iv) Copies of Air-tickets of Air-India / Indian Airlines (properly legible and in original with original Boarding Pass).
 - v) Certificate from Air-India indicating the shortest route to the venue approved. If journey is not performed by Air-India due to non-availability of flight official certificate from Air-India stating that there is no flight in the concerned sector (either

of Air India itself or in collaboration with some other Air-lines) on that particular date.

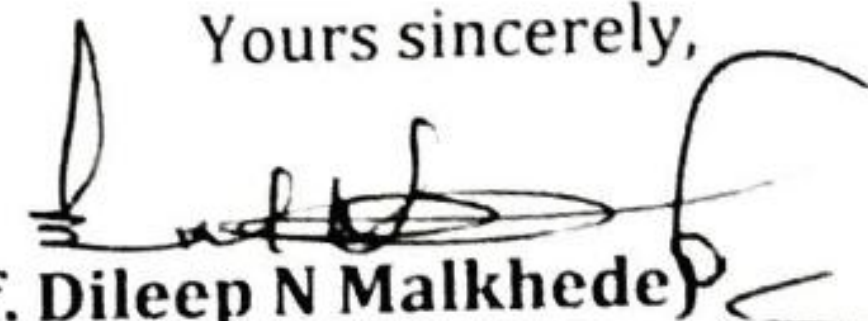

- vi) Original receipt of Registration Fee paid.
- vii) Voucher indicating the rate at which foreign currency is purchased.
- viii) Travel documents/ certificate of participation from the concerned institutional agency.
- ix) Details of assistance received from and / or facilities provided by other organization for the conference with documentary proof.
- x) Progress report on the International conference participated along with outcome and benefits of the event stating scientific and technical activities undertaken during period in the prescribed format duly counter signed by Director/Registrar/Principal.
- xi) Certificate from the head of the institution stating that the applicant has not availed the grant under travel grant scheme of AICTE during the last two years.
- xii) Certified copy of AICTE Extension of approval for 2019-20.
- xiii) e-payment details in the enclosed proforma.

- b. As the offer is subject to fulfillment of certain pre-requisite conditions and is in the nature of reimbursement of expenditure already incurred, separate utilization certificates are required to be furnished.

IV General instructions

- a. The offer letter is valid only if the applicant has not availed the grant under the Travel Grant scheme of AICTE during the last two years.
- b. The grantee will not be treated as a delegate sponsored by Government of India to the aforesaid conference.
- c. In case the journey performed by private air lines/any other airlines other than Air India, the exemption is required to be obtained from ministry of civil Aviation & prior approval of AICTE may be obtained before commencement of the journey.

- For smooth functioning of scheme and to meet its objectives effectively, it is essential to assign an adequate man power in the form of dedicated faculty as Principal Coordinator and support staff.

- c. Organize the workshop, training classes to enhance their skill for starting their own enterprise after completion of formal education.
- d. Organize open houses/ personality development workshops/competitions among students, to test the degree of their learning.
- e. The Principal Coordinator shall devise a feed-back mechanism to assess the importance of the programme. The feed-back shall be obtained after each programme from each of the SC/ST students. If need be, the centre can update its course curriculum of these programmes.
- f. The startup beneficiaries from other scheme of AICTE/Govt of India will not be entitled for the scheme.
- g. The scheme should be started within six months from the release of funds and completed within 2 years.
- h. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- i. **Refund of grant (by way of a demand draft in favour of Member Secretary, AICTE, New Delhi)**
 - a. In any case, if the institute is required to refund the grant or interest accrued thereon or balance amount, the amount will be refunded to AICTE.
 - b. If the college/institute does not have the Letter of Approval (LOA) or Extension of Approval issued by AICTE for the academic year 2019-20, the fund released should be immediately refunded to AICTE with interest accrued thereon.
 - c. If scheme is not started within six months of the issuance of this Offer Letter, the released amount, along with interest accrued thereon, has to be necessarily returned to AICTE.
 - d. It may be ensured that the scheme is completed within the stipulated time. If the scheme is not completed in time no further extension will be granted in any case and institute has to refund the entire amount to AICTE.
 - e. As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.

IV. Submission of documents by college/institution after completion of Scheme/Subsequent years.

The following mandatory relevant documents are required to be submitted by the college/institution within one month of the completion of the scheme:-

- a. Feedback form in the prescribed proforma.

nine months from the date of release of funds

g. Any unavoidable circumstantial change in the Program with respect to name of Project Coordinator, Venue and date for organizing FDP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-55/____/RIFD/FDP/Policy-1/2017-18 in your future correspondence.

h. Program Evaluation Committee (PEC) is required to be constituted at institutional level. The constitution of the PEC shall be as under:

(i) Principal/Director/Registrar of the institution (Chairperson).

(ii) Coordinator of the program (Member Secretary).

(iii) Two HODs and one subject expert (members)

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

i. GOI GFR rules (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.

j. This Sanction Order may be treated as Offer Letter for all purposes.

Yours sincerely,
