2015 - 2016

1. Clinical opportunities for biotechnology students

PRATHYUSHA INSTITUTE OF TECHNOLOGY AND MANAGEMENT

DEPARTMENT OF BIOTECHNOLOGY

The Department of Biotechnology organized Seminar on Clinical Opportunities for Biotechnology students by Mrs. Alamelu Murali, Clin Biotech on 24.07.15. For UG students. Totally 131 students were participated.

Dear Sir,

We are in receipt of your morning's email and we thank you sincerely for your splendid and willing cooperation to deliver the said Guest Lecture on 22nd July 2016. However, due to an unavoidable academic commitment the Guest Lecture is planned between 2.15 and 3.45 PM on 22nd July 2016.

Kindly make it convenient to join us for lunch hosted in your honour on the same day. Your kind confirmation will be highly appreciated.

Regards,

RG. Thayakaran,

Dear Sir,

Thanks for your mail and invitation. It is my pleasure to attend as guest lecturer on 22nd July (Friday).

I will be there by 9:45AM on same day. Please find the attached PPT for seminar. Along with this PPT, I have two videos to show to students, 1st video shows the Probiotics inhibition of pathogens in chicken gut, 2nd video gives details about spray dryer function and how enzyme converts into powder.

The videos bring along with me, as size issues to send through mail.

Once again thanks for invitation.

Thanks and Regards

Opportunities for Biotechnology students
By
Mr. Purna Chandra Rao, Tex Biosciences.
On
01.08.2015

The department of biotechnology organized seminar on Opportunities for Biotechnology students for II year III year and Final year students of Biotechnology, PEC. The session was handled by Mr. Purna Chandra Rao from Tex Biosciences. The session was inaugurated with welcome address by Our Dean of Placement and training followed by Department activities was represented by Head of the Department. The guest was honored by them and then the session was carried out by the speaker.

The importance of the field of biotechnology was explained well and the approach for biotechnology job was also explained. This was very good session for students to get awareness on the domain in the market.

Current trends in the development of Immunodiagnostics

By

Dr. Prince R. Prabhu, Center for Biotechnology,

Anna University, Chennai

On 04.08.2015

The department of Biotechnology organized seminar on Current trends in the development of Immunodiagnostics for the II year III year and IV year Biotech Students. Welcome address was given by Prof. Parthasarathi followed by about the department was represented by the head of the Department Dr. P. Dhasarathan. The Guest was honored by Professor Sir. Then the session was started.

The session was covered with basic diagnostic techniques, types and testing procedure. Further the session was continued with various immunodiagnostic methods by comparing with molecular diagnostic methods. The case study support with these techniques was quite interesting. It was well comparable with traditional method of diagnosis with immunological methods. The session was taken up in depth on the disease Filariasis. The students were gained knowledge on these methods of diagnosis in recent research.

ADVANCES IN ELECTRICAL, ELECTRONICS, INFORMATION, COMMUNICATION AND BIOINFORMATICS-2016 (AEEICB - 2016)

IEEE

AEEICB – 2016 CONFERENCE REPORT

2nd IEEE international Conference AEEICB 2016 sponsored by IEEE was held on 27th and 28th of February, 2016 at Prathyusha Engineering College, Thiruvallur. The ceremony was enriched with five invited guests from various institutions and industries. The session started with the inaugural ceremony which began with invocation and lighting of the lamp. The Principal, Dr. Beulah Devamalar welcomed the gathering and introduced all the dignitaries on the dais. All the five guests were felicitated with a bouquet, shawl and a memento by the Principal, Dr. Beulah Devamalar and the Capt.(NCC) RG Thayakaran, Dean /Training & Placement and Student Affairs

The presidential address was given by Dr. S. K. Singh, Scientist-G, National Institute of Wind Energy, and Advisor, Ministry of New and Renewable Energy.Dr. S. K. Singh enlightened and inspired the audience with his talk on solar energy for future. His talk was an eye opener for several researchers aspiring to reduce to cost of solar energy by fusion or integration of other latest technologies. Dr. Singh took us on a virtual tour on his current Solar Thermal Power Projects - Solar Cooling / Refrigeration Systems, Solar Radiation Measurements at NISE.

The presidential address was followed by the inspirational talks by the other invited guests;

1) Key note address was given by Mr.Santhosh Thomas, Global Hybrid Cloud Architect, IBM Global Technology Services, Chennai enriched the gallery by sharing his expertise in cloud computing

2) Mr. V.S. PrakashAttili, Principal, Head-Education & Training Division of Infosys, Chennai gave the special address and enlightened the gathering with his intrinsic thoughts on values to be upheld on a work place.

3) Dr. Jeyaraj, Associate Professor & Deputy Director (acting), University of Malaya, Kuala Lumpur shared his profound knowledge on technology overseas mainly Malaysia.

4) Dr. G. Giridhar, Deputy Director General / Head - Solar Radiation Resource Assessment, Ministry of New& Renewable Energy, Govt. of India, Chennai, the mentor for PrathyushaEngineering College sanctified the gallery with his inspiring speech.

The conference proceedings were released by Dr. S. K. Singh, and the first copy was received by Mr. Santhosh Thomas, Global Hybrid Cloud Architect, IBM Global Technology Services, Chennai.

The conference had tremendous response and had a great inflow of research papers from across the India and also from countries like Italy, Nepal, Egypt, Israel, Bangladesh and Sri Lanka. Over 430 research articles were received of which 155 were shortlisted and by systematic peer reviewed by experts from IIT, Anna University and NIWE. The eligible papers that were shortlisted would be listed in IEEE publications.

Finally, the Vice Principal, Dr. V. ThulasiBai proposed the vote of thanks and extended her gratitude on behalf of Prathyusha Group to all delegates on and off the dais and also all the organizers and participants who made the event a great success.

With this the technical session began with the presentation of Dr. S.K Singh followed by Mr. Santhosh Thomas. The presentations were divided into four tracks and were conducted over eight different venues. The track 1 was on **Advances in power energy and control** and was conducted by the department of Electrical and Electronics Engineering.The track 2 was on **Advances in Communications, Signal image processing and Virtual Instrumentation** and was conducted by the department of Electronics and Communication Engineering. The track 3 was on **Advances in Information Technology** and was conducted by the department of Computer Science and Engineering and the department of Information Technology. The track 4 was on **Environment/Health care/Sustainable Management** and was conducted by the department of Biotechnology. The presentations were distributed for two days on 27th and 28th of February, 2016. The day one ended with total of 85 presentations and the remaining presentations were done on the second day.

The valedictory function was presided over by Princiapl, Prathyusha Engineering College, Chennai. The gallery was spellbound with her inspirational speech. The guests were felicitated with a by the Principal, Dr. BeualahDevamalar and the Dean, Mr. Thayakaran. The Vice Principal, Dr. V. ThulasiBai proposed the vote of thanks and extended her gratitude on behalf of

PRATHYUSHA ENGINEERING COLLEGE
TIRUVALLUR – 602 025

IEEE

Prathyusha Group to all delegates on and off the dias and also all the organizers and participants who made the event a great success.

Overall, 2nd IEEE international Conference AEEICB 2016 sponsored by IEEE offered a wide spectrum of quality R&D updates from key experts from prestigious Universities, Institutions and Industries and provided a great opportunity in bringing the new techniques and horizons that would contribute to Electrical, Electronics, Computing, Communications and Bio Informatics in the forthcoming years. The conference provided a platform for promoting discussion and interaction in recent developments to foster the exchange of concepts, and research ideas and the results of research work.

DEPAERTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING
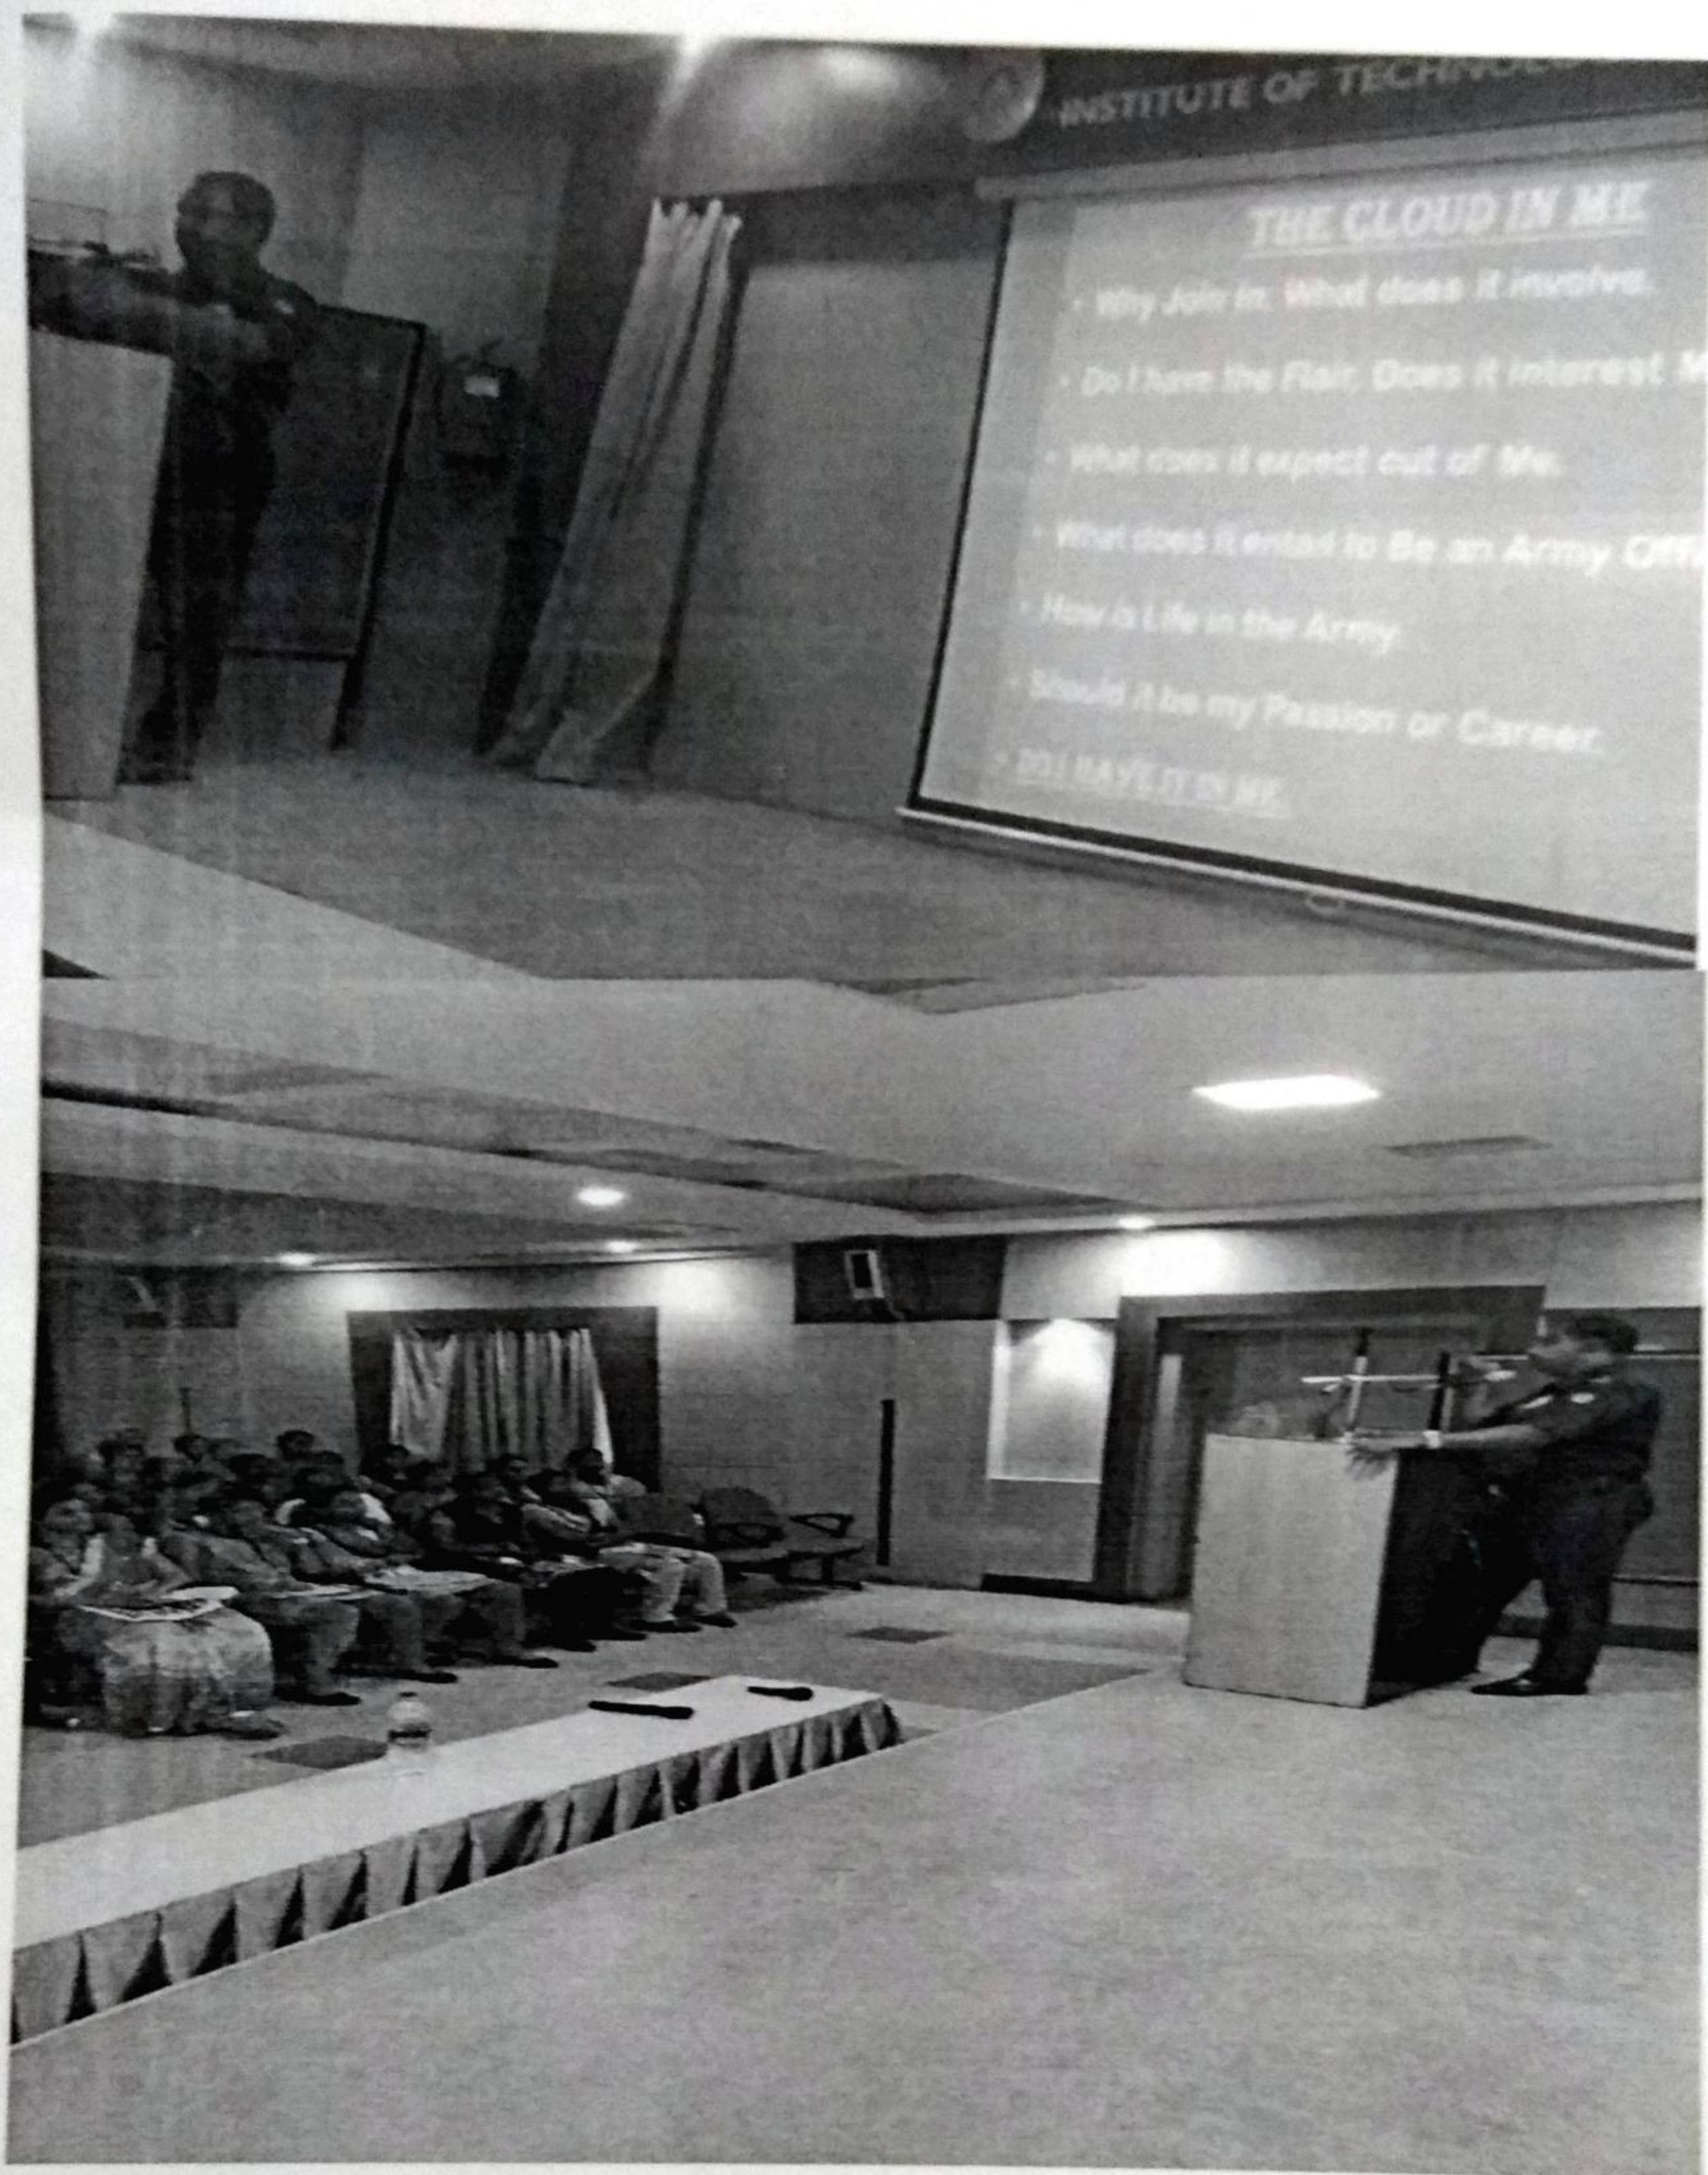

REPORT ON SIGNALS & SYSTEMS AND ITS APPLICATIONS

19.08.2015

The guest lecture given by Lt.Col.John Prince, Quality Control Officer, Indian Army was very useful for knowing the basics of Signal & Systems clearly and he made us to understand it very well. He started his lecturer with the introduction of Signals. He had shown us many real time projects for the better understanding of how the system works and its application sin Military. This was very much helpful for our students to enrich themselves to explain their project clearly to the audience. We really thank him for his concern of his deliberate speech.

The students realized the importance of reducing development time and increasing design capability. They also appreciated the breadth and depth of system design and how to apply it. He was explaining the concept with real time example that was awesome in his lecture really we are happy and which helped us to remember the concept for ever. He explained the real time projects and all his session was very useful.

We are grateful for his temperament in giving detailed study about the basics of embedded. We are thankful to the department and the management for organizing such a valuable program for our career development.

Guest lecture held on 19/08/15 at multi purpose hall on the topic "Fundamentals of signal systems and its applications" for II yr/III sem (Sec's A,B,C&D) students.
