LANDSCAPING WITH TREES AND PLANTS

College has implemented green-friendly practices to manage the available resources and has taken steps in environmental conservation and protection.

Carbon dioxide neutrality is maintained on the campus by planting different varieties of trees and plants. The green campus concept offers PEC to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Total green areas on the campus	:	16187 sq.mtrs
Lawn	:	3182 sq.mtrs
Tree cover	:	9000 sq.mtrs
Shrubs and herbs	:	2505 sq.mtrs
Potted plants	:	1500 sq.mtrs

Our NSS volunteers are actively involved in various pollution awareness programmes in and around the college and help in maintaining a green campus. It encourages college students to care about the treatment of trees and shrubs as well as environmental issues within their campus community. There are tree plantations during almost all important occasions by the Chief Guests during all college fests. The Chairman, Principal, staff and students involve in tree plantations in the campus during Republic Day, Independence Day, Chairman's Birthday, New Year and most important days during the year. This makes us to prove that planting trees and shrubs can improve the aesthetics of the landscape. This activity had created some awareness amongst PEC fraternity to maintain eco-friendly atmosphere on the campus.

LOCATION OF TREES IN PEC CAMPUS

Sl.No	Location	No of Trees
1	From Main gate Center	20
2	From Main gate – Left Side	192
3	From Main gate – Right Side	228
4	Main Block	94
