AGENDA :

- 2021 regulation for II and III year students
- 2017 regulation for IV year students
- Approval of new regulations 2023 (curriculum and syllabus for I year) .
- Suggestions by members

Minutes of Meeting- 08.09.23

S.No.	Suggestion by Members
1.	Members felt that the total credit summary of 181 is too high, and suggested that it should be reduced as per AICTE model curriculum, which suggests a range of 150 to 160 credits for a student to be eligible to get Under Graduate degree in Engineering.
2.	Mandatory Courses should not be offered as credit courses as specified in the model curriculum of AICTE.
3.	The number of credits allotted to Employment Enhancement Course (EEC) has to be brought down from 22.
4.	Online courses offered should not be made compulsory for every semester, as more courses are offered in classroom teaching. Students should have the option to study online courses if required as per their requirements.
5.	Presentation and Communication skills lab may be included in first Semester by replacing Digital Marketing Course, and it can be offered in sixth semester.
6.	Computer programming course may be introduced in second semester by replacing physics subject, as computer programming subject is offered only in first and third semesters respectively.
7.	Foreign language lab can be included in second Semester instead of Startup Course.
