

# PRATHYUSHA ENGINEERING COLLEGE

## DEPARTMENT OF BIOTECHNOLOGY

### IEEE ACTIVITIES 2021-2022

| DATE     | TYPE OF EVENT          | TITLE OF THE EVENT  | GUEST DETAILS   | NUMBER OF STUDENTS PARTICIPATED |
|----------|------------------------|---|---|---------------------------------|
| 23.2.22  | Webinar                | Computational research strategies for understanding molecular self-assembly and its biological implications | Bibin G Anand<br>Postdoctoral Research Fellow<br>Department of Physiology and Biophysics, Boston University<br>Massachusetts, USA | 75                              |
| 28.2.22  | Guest Lecture          | Gateway to Research: Molecular Structural Analysis using Python Programming                                 | Dr.S.ArulMugilan<br>Bioinformatics expert<br>Kamarajar Government College,<br>Tirunelveli.  | 66                              |
| 30.3.22  | Guest Lecture          | How to set up a biotech startup? Experience of a first generation entrepreneur                              | Dr. D. Benet BoscoDhas<br>Founder and CEO, 30M Genomics Pvt Ltd.,   | 45                              |
| 18.4.22  | Workshop               | PyMOL   | Ms.YukthaSreenivasan<br><br>Master's in Applied Biotechnology<br><br>MC Gill University, Canada.                                  | 25                              |
| 27.4.22  | Guest Lecture          | Next Generation sequencing and Bioinformatics in life science   | Dr.Sewali Gosh and Dr.Habeeb Sheik Mohideen Co-founder of Bintebrate research solutions LLP, Chennai                              | 63                              |
| 21.05.22 | Technical presentation | Poster Presentation   | -   | 43                              |
